

Masters Swim Program

The U of R Masters swim program is organized for adults, ages 18 and older, who are interested in swimming. The program will swim September through May following the academic year. There are multiple levels of the program for people interested in swimming just for fitness or for competition. Members can choose their level of involvement. This program is great for former high school and college swimmers looking to stay active in the sport and maintain their fitness or skill. This is not a learn to swim program and members should know how to swim.

Members will have a coach available for developing work outs, improving stroke mechanics, and maximizing efficiency in the water. In order to be a part of the Masters swim program you must either be an R club member or a student at U of R. Membership in the R Club will also give you access to the sports complex throughout the year.

Practices are held in the University of Rochester's Speegle-Wilbraham Aquatic Center on Monday, Wednesday and Friday 4 p.m.–5 p.m beginning on 9/9/19.
