Recreational programs provide a variety of fitness activities and sports which promote personal self-development, social interaction, leadership opportunities, and general participation.

Club Sports: **Jeff Juron** 275-4302

The purpose of the Club Sports Program is to offer students the opportunity to organize, advise, coach and participate in sports activities that fall between the scope of varsity athletics and intramurals. Recognized clubs may be organized to compete against club teams from other colleges or universities. Other recognized clubs are formed as instructional or recreational programs where skill development, participation and social interaction are priorities.
