NEED ACADEMIC CREDIT FOR AN INTERNSHIP?
There are several ways to arrange academic credit for internships. The most up-to-date listing of academic policies regarding internship credit are available through the College Center for Advising Services at http://www.rochester.edu/college/CCAS/students/opportunities/internships.html. Please see the CCAS website and meet with an academic adviser or Career and Internship Center counselor to discuss the most appropriate internship option for you. More frequently, employers are requesting that volunteer interns receive transcript notation or academic credit, so we need to understand your specific circumstances in order to advise you accordingly.

UPCOMING PROGRAMS AND EVENTS
The 28th National Conference on Undergraduate Research (NCUR) will take place on the campus of University of Kentucky, April 3-5, 2014.

Typically, 20-30 students from the University of Rochester attend this conference annually and give presentations on their research. This is a wonderful opportunity for students to show off their work and meet other students doing research around the country. This venue is of particular value for students who do not have the opportunity to make a presentation at a professional meeting in their area of research. You can find more information on this year's conference at [http://www.cur.org/ncur_2014/](http://www.cur.org/ncur_2014/)

Please visit the College webpage at [http://www.rochester.edu/college/ugresearch/ncur/index.html](http://www.rochester.edu/college/ugresearch/ncur/index.html) to find an overview, application information, and a timeline of the application process.

Although students can submit abstracts and attend the conference on their own, the Office of Undergraduate Research will organize a trip to NCUR for a group of University of Rochester students and cover the travel expenses for as many of these students as budget constraints allow.

Please note that the deadline for interested students to submit applications to the Office of Undergraduate Research to be part of this group is October 31, 2013.

If you have questions, please contact Ann Robinson in the Office of Undergraduate Research in 4-209B Dewey Hall (ann.robinson@rochester.edu, phone 276-5306).

PUBLIC HEALTH GRAND ROUNDS

Linking Research to Community Health Improvement

Jointly sponsored by the Department of Public Health Sciences & Center for Community Health

Making Healthy Choices Easier:
Changing the Environment to Reduce Chronic Disease

Nan Feyler, JD, MPH
Chief of Staff, Philadelphia Department of Public Health

A network of healthy corner stores; farmers’ markets in low-income neighborhoods; healthy vending machines; school wellness councils; healthier school lunches, breast feeding friendly hospitals...these are today’s public health tools to make healthy choices the easy choices where people live, learn, work, and play.

The Philadelphia Department of Public Health has adopted many of these strategies to increase healthy food access. But what about decreasing access to unhealthy foods like soda and junk food? Prohibiting junk food sales at school fundraisers, taxing soda or banning sales of 20-ounce sodas are more controversial. Should they be part of the public health strategy to reduce chronic disease? Or is this simply the government becoming a “nanny state?”

Join us for a lively discussion of the lessons learned from Philadelphia’s experience!
