Teach For America Deadline Next Week
Friday, September 13

Teach For America is the national corps of outstanding recent college graduates and working professionals - of all academic majors, backgrounds and career interests - who commit two years to teach in urban and rural public schools and become lifelong leaders for expanding educational opportunity for all children.

The reality is that only one in thirteen students growing up in poverty today will graduate from college. We seek outstanding individuals who possess the leadership skills and experience that will enable them to change the prospects of low-income students growing up today and, ultimately, to effect the fundamental change in our society that will make it a place of opportunity for all.

Full salary and benefits. All academic majors welcome.

To learn more, visit www.teachforamerica.org

To speak with a Teach For America representative, contact Kyle Coleman at kyle.coleman@teachforamerica.org

Education

MATCH School
MATCH is an open-admission public middle and high school in Boston, MA. Our mission is to help our students achieve success in college and beyond. College, College, College- not just preparing kids so they get into college, but so that they are ready to succeed there. We serve about 90 students in Grade 6 and about 220 students in Grades 9 to 12. Our middle school will grow Grades 7 and 8 during the next two years. Our ambition is to fulfill traditional notions of a high school graduate, one fluent in math, English, science, and history. All seniors must succeed in at least two Advanced Placement classes and two Boston University classes in order to graduate.

MATCH Corps: Boston
Match Corps: Boston is a one-year, full-time residential fellowship program. It pairs Corpus members with 6-7 students at Match High School, Match Middle School, or Match Community Day Elementary School. Corps members run small group or 1-on-1 tutorials, manage extra-curricular activities, coach sports, and serve as a Teaching Assistants to any one of our outstanding classroom teachers. Corps members may also participate in the role of an Administrative Assistant in one of the school departments. This full-time service year program is designed to fully close the academic achievement gap between minority students and their non-minority peers, one student at a time. Each Corps member works to guarantee the academic success of Match students while building personal relationships with the students and their parents.

MATCH Teacher Resident
Match Teacher Residency (MTR) is a 12-month program (August through July) that fully includes all aspects of the Match Corps: Boston experience, but is designed for those who know they want to teach in an urban school following their fellowship year. The purpose of this program is to become unusually effective, rockstar rookie teachers. Match Teacher Residency includes the normal Match Corps load each Monday to Thursday, but it also includes specific teacher training on Fridays and Saturdays. All students enroll at our sister institution, the Charles Sposato Graduate School of Education.

UTC residents prepare to become highly competent teachers; in addition to the clinical experience, they also enroll in one of two dual Master’s of Education program (“K-8 Elementary and Special Education”, “Secondary Literacy and Special Education” or “Secondary Mathematics and Special Education”) that is directly relevant to the urban teacher. All UTC teachers are part of an unprecedented commitment to student performance - only those who can demonstrate that they can improve student learning will complete the program.

Reasoning Mind – Houston, TX
Reasoning Mind is a non-profit that is changing the paradigm of math education in the US. Using RM’s 2-6th grade web-based program as a tool, teachers individualize lessons for each child. Students learn to love mathematics and teachers appreciate the in-classroom support they receive to make the RM program a success. Combined, these factors work together to dramatically improve the math achievement of children from disadvantaged communities.

Knowledge Engineer
Knowledge Engineers work with expert Russian mathematics teachers to understand how they plan and carry out their lessons. They use these insights to design interactive online lessons that simulate the work of the expert teachers. Interactive lessons include explanations of concepts, games, and problems, among other elements.

Implementation Coordinator
Implementation coordinators will be partnered with schools to train teachers to effectively use Reasoning Mind, visit classrooms to understand how teachers are implementing the program, meet with teachers to provide feedback and brainstorm effective practices, analyze student progress and plan next steps, and engage principals and other school staff to help implement the program with fidelity.
