

Welcome to the Fall Career and Internship Fair 2002!

The entire Career Center staff is pleased that you have chosen to spend some time today meeting with recruiting representatives and investigating career and internship possibilities. We hope that you are prepared to ask pertinent questions, articulate interests, and take full advantage of this opportunity to speak individually with the recruiters here today.

The Fall and Spring Career and Internship Fairs represent major networking opportunities for students who wish to interact with potential employers. Many members of the Class of 2003, who are exploring post-baccalaureate employment, have already discussed goals and strategies with one of our staff, and you have learned how to use yoURCareerLink to maximize your on-campus and off campus efforts. Please remember that in addition the Fall and Spring Career and Internship Fairs, we offer many resources and events designed to address the needs of graduating Seniors. These include the UR Contacts in Resume Collections, the Career and Internship Connections in New York, Boston, and D.C., as well as On-campus Recruiting and regular job and internship postings. If you have not discussed your individual employment or graduate school plans with one of us yet, I encourage you to do so as soon as possible. We are yoUR Career Center!

Freshmen, Sophomores, and Juniors should find the Fall Career and Internship Fair a wonderful opportunity to preview potential employers, learn more about career options, and investigate internship opportunities.

All students should use this event as a way to learn more about the Career Center and focus on appropriate “next steps,” no matter yoUR class year or career focus. Please visit the Center’s Information Table at the Career and Internship Fair, spend a few minutes chatting with one of our counselors, explore the web-based resources we offer, pick up valuable materials, and learn specifically how we can help you. Specifically, if you don’t find recruiting representatives at the Fair who match your areas of interest, a Career Center staff member can identify field focused resources which would be of value.

We look forward to all undergraduates being regular visitors to the Career Center in Meliora Hall, and we hope that you continually take advantage of the many, many resources we offer. Also, always let us know how we can assist you. UR why we are here!

Sincerely yoURs,

Burton Jay Nadler
Career Center Director
Assistant Dean

United States Department of State

The Department of State is the Federal Government which is seeking Foreign Service Security Engineering Officers to serve at U.S. embassies and consulates worldwide. Candidates must agree not only to serve at any U.S. diplomatic or consular post abroad, but also at domestic locations such as the Department of State in Washington, DC, and the Florida Regional Center in Ft. Lauderdale, FL. Foreign Service Security Engineering Officers (SEOs) of the Bureau of Diplomatic Security are professional engineers with the extraordinary mission of protecting Department of State facilities, personnel, and information against acts of crime, terrorism, and espionage by establishing, maintaining, and enhancing the technical, physical, and information security systems at our diplomatic and consular posts abroad. The Foreign Service is more than a job; it's a career. As a member of a diplomatic team, you will not only help to accomplish the mission of the Department of State, but you will also be a representative of your country to the people of other nations.

Career and Internship Fair

United States Navy

At the United States Navy Officer Programs in Western New York, our goal is to help highly motivated college students and graduates become Naval Officers. The Navy has a wide range of opportunities and career fields. Naval Officers are highly trained professionals who operate advanced weapons systems, multi-million dollar ships, aircraft, submarines all on the cutting edge of technology and medicine. You will find that being a Navy officer is a very challenging and rewarding profession. Large and complex, it's big business requiring thousands of highly skilled technicians and managers, with you leading the way. All college majors should apply.

United States Peace Corps

While giving others the benefit of your education and hard-earned skills, you can enhance your own career. A college education combined with Peace Corp service produces measurable career advancement. Among the benefits of Peace Corps service are intensive languages, cultural and professional experience. On your resume, a two-year Peace Corps commitment demonstrates initiative, leadership and professional development. President John F. Kennedy created the Peace Corps in 1961. Since then, more than 165,000 Americans have served as Peace Corps volunteers in 135 countries. The three goals of Peace Corps, established in an Act of Congress, are: To help the people of interested countries meet their needs for trained men and women; to help promote a better understanding of the American people on the part of the people served; to promote a better understanding of other people on the part of the American people. Join the Peace Corps - it's the toughest job you'll ever love.

Xerox Corporation

At Xerox, we focus on the document. In fact, we've made it our goal to be the leader in providing document solutions that enhance productivity and knowledge sharing. Document solutions consist of hardware, software, and services. They add value to organizations by improving the way knowledge is shared, business is done, and value is delivered. Xerox develops the world's most sophisticated and people-friendly technologies for managing and sharing knowledge. With our partner, Fuji Xerox, we're a \$26.2 billion Document Company with global resources and the world's richest product and service portfolio: copiers, printers, scanners, desktop software, digital printing and publishing systems, supplies, and turnkey document-management and outsourcing services. Xerox has won 25 national quality honors in 20 countries and major environmental honors on three continents. We value our people and their knowledge, and embrace the concept of workplace diversity. Since our founding, we've strived to be a model of community and social conscience throughout the world.

YAI/National Institute for People with Disabilities

YAI is an award winning, nationally acclaimed network of not-for-profit health and human services agencies dedicated to building brighter futures for people with developmental disabilities of all ages and their families. We serve individuals, families, and communities in New York City, Nassau, Suffolk, Westchester, Rockland, Orange, and Sullivan Counties within New York State. The most recent additions to our network have begun offering services to the people of New Jersey and Puerto Rico as well. Our National Training Institute also offers additional support to numerous agencies, which serve people with disabilities throughout the United States. YAI's more than 300 programs and direct services are delivered by our 4,000 well-trained professionals, and benefit more than 20,000 individuals and their families daily. Established in 1957, YAI was originally called the Young Adult Institute because its work was focused on adolescents and young adults. Today, we serve constituents of all ages, from infants through the elderly, and the original name no longer applies. However, along with our mission and our commitment to excellence, the familiar initials have been retained as the organization's identification, for continuity with the past.
