

Welcome to our annual study abroad fair!

At the Fair, you will have the opportunity to meet and talk to a variety of people, including study abroad program representatives, students who have already studied abroad, UR faculty who are familiar with our programs, and faculty who teach on study abroad programs.

Whether you're just considering an overseas experience, or have already decided where you'd like to study abroad, take advantage of the many resources at the Fair. The bag you're given at check-in contains materials to get you started: a Study Abroad Information Meeting schedule and our study abroad handbook "UR There".

Need a passport? The Rochester City Clerk's Office is here to provide US passport applications, and to accept completed applications. A photographer is also on hand to take your required photos.

Staff from many UR offices can help you as you plan your overseas experience: The College Center for Advising Services (general academic advice, Take Five Scholars program, health professions, KEY program), The Career and Internship Center (how will an internship abroad benefit my career goals, for example), the Financial Aid Office (are there additional scholarships for study abroad?).

Talk to faculty and returnees about how study abroad will fit in with your academic interests; each of the divisions (Humanities, Natural Sciences, Social Sciences, and Engineering) will be represented on the Bridge Lounge and in the May Room.

In the pages that follow, you will find a listing of the programs that are represented at the Fair, with a brief description of their offerings.

Thanks for attending; we hope that you enjoy the Fair!

-The Staff of the Center for Study Abroad and Interdepartmental Programs

# Study abroad programs, UR offices, and services represented

## **Accademia dell'Arte**

Arezzo, Italy: *Summer 2014*

The Accademia dell'Arte and University of Rochester are pleased to offer a highly personalized summer experience abroad. This four-week summer intensive allows students to combine the performing arts with liberal studies to create a unique program in their chosen area of study while sharing the delights of a summer in Tuscany.

Courses include Italian language, acting, Mask making, and Italian Film

## **Advanced Studies in England**

<http://www.studyabroadbath.org/>

Bath: Advanced Studies in England: *Fall, Spring, or Full Year*

This program offers students the opportunity to spend a semester or year studying English literature, arts, and history, as well as related courses in British politics, music, women's studies, and philosophy. The program takes place in beautiful and richly historic Bath, with residencies in Oxford and Stratford. Courses often include study trips and are taught by Oxford University professors, outside field specialists, and ASE administrators. The academic program also offers internships, tutorials and an education program. Study trips are part of many of the courses.

## **Advanced Studies in England – SUMMER**

This summer's program includes a course taught by English Professor Jeffrey Tucker and is open to students in any academic discipline.

## **American University in Cairo Exchange**

<http://www.aucegypt.edu/Pages/default.aspx>

Cairo: *Fall, Spring, or Full Year*

The American University in Cairo is a four-year liberal arts college of 4,500 students from all segments of Egyptian society and from around the world. Its academic programs are organized into three schools: Humanities and Social Sciences; Sciences and Engineering; and Business, Economics and Communication. The language of instruction is English. AUC is noted for its fine courses on Arabic language, Islamic art and architecture, Egyptology, Middle Eastern society and politics. Science and engineering courses are also offered.

## **Archaeology in Italy**

<http://www.rochester.edu/College/faculty/ecolant2/sanmartino/sanmartino.html>

San Martino or Arezzo: *Summer*

The Archaeological Field School is a summer program designed to teach students about archaeological field and laboratory methods, geophysical prospection in archaeology, and the archaeology of ancient Italy. The course is taught on site in Italy, and participants learn through first-hand experience excavating at the site as well as through lab work, assisting in geophysical studies, lectures, readings, and guided museum and archaeological site visits. Participants will have the opportunity to learn about life in modern as well as ancient Italy.

### **Rochester in Arezzo: Italian Studies in Tuscany**

<http://www.rochester.edu/College/MLC/arezzo/>

Arezzo: *Fall*

This on-location program, taught by UR faculty offers courses in Italian language, literature, history, art and culture. Arezzo, in the heart of Tuscany, is one of the most interesting cities in central Italy. It is the home of the Facoltà di Lettere e Filosofia of the University of Siena. In addition to its historical and artistic significance, Arezzo has succeeded in preserving its identity without becoming a typical tourist city. It is also internationally renowned for artistic and industrial gold work. Available to sophomores, juniors and seniors. Successful completion of the program fulfills a humanities cluster. No prior study of Italian is required, and the program can also accommodate students with advanced Italian language study.

### **Australian National University Exchange (at the Exchanges table)**

[http://info.anu.edu.au/studyat/International\\_Office/exchange/incomingindex](http://info.anu.edu.au/studyat/International_Office/exchange/incomingindex)

Canberra: *Fall, Spring, or Full Year*

The exchange program with Australian National University in the capital city of Canberra allows UR students to study at the prestigious ANU while their American counterparts study at UR. Australian National University is set apart by its research intensity and offers a wide variety of courses in engineering, natural science, social science and liberal arts subjects.

### **Ben-Gurion University Overseas Student Program**

<http://www.aabgu.org/osp/>

Beer-Sheva: *Fall, Spring, Full Year*

The Overseas Student Program begins with an intensive, Hebrew language course (Ulpan-6 credits). Academic-year classes taught in English include options such as Focused Academic Tracks in the areas of Sustainable Development and Environmental Justice, Peace Studies and Regional Security, and Global Health. Classes in Israel and Jewish studies are also available including Archaeology, History and Literature. Numerous volunteering opportunities as well as internships are available, including opportunities to work with the large Bedouin community that lives in the area surrounding Beer Sheva. Students live with Israeli roommates in the dormitories and have the opportunity to be immersed in the most vibrant and socially engaged campus in Israel. A modern train station on campus allows easy access to traveling in the entire country and trips, lectures and excursions are an integral part of the program in order for students to get a truly all-encompassing feel of the country.

### **Bermuda Archaeology Project**

<http://smithslandarchaeology.blogspot.com/p/introductory-overview.html>

Smith's Island: *Summer*

UR field school, led by Professor Michael Jarvis of the Department of History.

“Most people today know Bermuda for its pink sand beaches, honeymoon suites, offshore companies, and global business centers, but the island has an even richer history: It is the oldest colony in the British Empire. At only 22 square miles, the island is packed with four centuries of dynamic history – a wonderful laboratory for studying the blending of European, African, and American cultures that characterize the Atlantic World. This historical and archaeological research project in Bermuda has been ongoing since 2010 and is focused on exploring four centuries of Bermudian history through targeted excavations. This research has been made possible with the generous support of the University of Rochester, the Bermuda National Trust, the St. George's Foundation, the Spurling family, Norman and Anne Brown, Geoffrey Redmond, and members of the BNT's Archaeological Research Committee.”

### **Braude College Exchange** (Hajim table)

<http://braude.ac.il> (click on Jerusalem-Galilee Engineers Study Abroad at Braude)  
Karmiel: Spring

Braude College's Study Abroad program offers Mechanical Engineering majors the opportunity to study for a semester at the leading engineering college in Israel's Galilee region. All courses are conducted in English and academic credits earned in the program are transferable, and can be used towards the completion of a degree. For details, contact Lisa Norwood in the Hajim School of Engineering and Applied Sciences' Deans Office, Lattimore 301.

### **Bristol University Exchange** (at the Exchanges table)

<http://www.bristol.ac.uk/international/>

Spend a semester or year at the University of Bristol. Courses are available in a variety of disciplines, including the Humanities, Natural Sciences, and Social Sciences. Visit the International Initiatives table for more information.

### **Career and Internship Center**

<http://www.rochester.edu/careercenter/>

The Career and Internship Center assists students with identifying and developing international career goals. Whether you are looking for a way to gain experience while studying abroad, are interested in international internship programs and options, or are hoping to work abroad after graduation, we're here to help! With specific resources for international careers, including several of our own websites on interning and working abroad as well as student access to the GoingGlobal web resource, the Career and Internship Center can help you achieve your global goals! Stop by our table today or our offices in Dewey Hall 4-200 to get started!

<http://www.rochester.edu/College/CCAS/>

Staff of the College Center for Advising Services will be available to provide general academic advice, as well as information about some of their special opportunities such as certificates, fellowships, health professions, KEY program, and the Take Five Scholars program. You can study abroad and take advantage of these academic opportunities, too.

### **College Year in Athens**

<http://www.cyathens.org/welcome>

Athens: *Fall, Spring, or Full Year*

The College Year in Athens Program provides courses focused on Greece and the East Mediterranean world. At the same time, it specializes in creating a caring environment that imparts knowledge by first-hand experience, immediate observation, perception, and enjoyment.

## **Council on International Educational Exchange (CIEE)**

<http://www.ciee.org/study-abroad/>

*Fall, spring, full year, depending on location*

For more than 60 years, CIEE has offered study abroad programs around the world. Opportunities vary by program, and may include courses taken with other program participants, courses taken at a local university, or internships.

UR-affiliated programs:

Gaborone, Botswana "Arts and Sciences"

Beijing, China

Nanjing, China

Prague, Czech Republic "Central European Studies", "Film Studies"

Paris, France "Contemporary French Studies", "Critical and Francophone Studies"

Legon, Ghana "Arts and Sciences", "Business, Development & Social Entrepreneurship"

Budapest, Hungary "Central European Studies"

Naples, Italy "Classical Studies"

Amman, Jordan "Arabic Language", "Diplomacy and Policy Studies", "Language & Culture"

Warsaw, Poland "Central European Studies"

St. Petersburg, Russia "Russian Area Studies", "Russian Language"

Dakar, Senegal "Development Studies", "Language and Culture"

Taipei, Taiwan "Communications, Business & Political Economy", "Intensive Chinese Language & Culture"

Khon Kaen, Thailand "Community Public Health", "Development & Globalization"

Sharjah, United Arab Emirates "Business, Engineering, Arts & Sciences"

## **Danish Institute for Study Abroad (DIS)**

[www.disabroad.org](http://www.disabroad.org)

Copenhagen: *Fall, spring, full year*

This program offers more than 120 courses across a broad spectrum of disciplines. The faculty is mostly Danish, and all courses are taught in English. The curriculum covers burning issues of our time and offers the cutting-edge knowledge in areas such as the environment, ethnicity, inequality, urban issues, design, gender, child development, and health care. The program is located in the very center of medieval Copenhagen.

## **Energy, Sustainability and Society (at the Summer Programs table)**

*Summer 2014*

Offered by Professor E. Chimowitz of the Department of Chemical Engineering, this course is open to students in any major. It may be of special interest to students in the sciences, engineering, and sustainability fields.

## **Fellowships Office**

<http://www.rochester.edu/college/studentfellowships/>

Find out about opportunities for national and international undergraduate and graduate-level fellowships. The Fellowships Office staff will help you find the ones best suited to your academic, personal, and career goals.

## **Financial Aid Office**

<http://enrollment.rochester.edu/financial/>

Talk to a financial aid counselor about how your aid package might be affected when you study abroad, how outside scholarships can help, and any other study abroad/financial aid-related questions. There will also be information about study abroad scholarships at the neighboring table.

## **Deaf Culture, History, and Sign Language in France**

<http://www.asl.rochester.edu/paris/index.html>

*summer*

This three-week program focuses on basic and advanced conversational French Sign Language and on field-trips fostering a broad understanding of French Deaf culture and general French culture. No previous French Sign Language or French experience required.

## **Exchange Programs**

Learn about our exchanges and meet current exchange students. Our exchanges include Jagiellonian University, Uppsala University, PUC Peru, American University in Cairo, Australian National University, University of Macau, University of Western Australia, University of York, Bristol University, Nanyang Technological University in Singapore, Hong Kong University of Science and Technology (for engineering majors), and the Chinese University of Hong Kong. Special scholarship for students who participate in these exchanges!

## **Hajim School of Engineering and Applied Sciences**

[http://www.hajim.rochester.edu/undergraduate/studyabroad/study\\_abroad\\_intro.html](http://www.hajim.rochester.edu/undergraduate/studyabroad/study_abroad_intro.html)

Five years ago, only 10% of UR engineering students studied abroad. Today it is almost 20%!

At the Fair, you'll be able to meet with Hajim students who have studied abroad, and with staff and faculty who are eager to make your study abroad dreams a reality.

## **Hebrew University Rothberg School for International Students**

<http://overseas.huji.ac.il/>

Jerusalem, Israel: *fall, spring, full year*

The program begins with an intensive Hebrew language course (Ulpan) and a social and cultural orientation. Students proficient in Hebrew may enroll in regularly scheduled Hebrew University courses. Program offerings include DanceJerusalem, which includes university level artistic and technical training in the disciplines of Classical Ballet, Contemporary Dance, Choreography, Repertoire, and Improvisation; and Jerusalem Sounds, which includes private lessons, performances in small and large ensembles, and classes in Jewish and Israeli music. Both DanceJerusalem and Jerusalem Sounds are presented in conjunction with the Jerusalem Academy of Music and Dance (JAMD). The ArtJerusalem track allows students to take courses at the Rothberg School, as well as at the Bezalel Academy of Arts and Design.

## Humanities division

Are you considering a major or minor in the Humanities? (American Studies, Archeology, Technology & Historical Structures, Art & Art History, African & African-American Studies, American Sign Language, Bioethics, Dance, Digital Media Studies, English, Film & Media Studies, Jewish Studies, Modern Languages, Music, Philosophy, Religion & Classics, Women's Studies)

At this table, you can chat with a faculty member or a study abroad returnee majoring or minoring in the Humanities to explore your interests. For example, which programs or countries offer courses or internships that will further your expertise or knowledge? How did the student choose his or her program? If you're studying a language, when is the best time to study abroad?

## Institute for the International Education of Students Program (IES)

[www.iesabroad.org](http://www.iesabroad.org)

*fall, spring, full year*, depending on location

UR is affiliated with all of the semester and academic year programs offered by IES. Some programs have internship or service learning components, and many locations offer science and engineering courses.

Buenos Aires, Argentina

Melbourne, Sydney, Australia

Vienna, Austria

Rio de Janeiro, Brazil

Santiago, Chile

Beijing, Kunming, Shanghai, China

San José, Costa Rica

Quito, Galapagos Islands, Ecuador

Nantes, Paris, France

Berlin, Freiburg, Germany

Delhi, India

Dublin, Ireland

Milan, Rome, Siena, Italy

Nagoya, Tokyo, Japan

Rabat, Morocco

Amsterdam, Netherlands

Auckland, Christchurch, New Zealand

Cape Town, South Africa

Barcelona, Granada, Madrid, Salamanca,

Spain

Istanbul, Turkey

London, Oxford, United Kingdom

## Internships in Europe

<http://www.rochester.edu/college/internships/index.html>

Berlin, Bonn, Brussels, Edinburgh, London, Madrid: *fall, spring, summer (some locations)*

Our programs combine eight-credit internships with coursework throughout the semester, and provide a solid work experience. Students get a window on the world of work, a sample of life as a team player, and an unforgettable opportunity to explore what it's like to live and work in a foreign country. Summer programs are eight weeks in length. Prerequisite for the programs in Germany and Spain: a minimum of four semesters of language (101-152). Internships are available in a variety of fields, including business, law, politics, health sciences, research, arts, museums, psychology, theatre.

## Jagiellonian University Exchange

<http://www.uj.edu.pl/en/dydaktyka/studia-i-ii-st-jednolite-mgr>

Krakow: *spring, full year*

Jagiellonian University was founded in 1364, making it one of the oldest universities in Europe. By the mid-15th century the University had become famous far beyond the borders of Poland, and subsequently grew into Europe's leading school of astronomy, mathematics and

geography. The University has always attracted many students from other countries, and among its most distinguished local students are Copernicus and Pope John Paul II. Courses for international students are taught in English and include Polish language, history, Judaic studies, literature, political science, sociology, math and Science. Available to sophomores and juniors. A summer program is also offered.

### **David T. Kearns Center for Leadership and Diversity**

<http://www.rochester.edu/college/kearnscenter/>

The vision of the Kearns Center is one in which all individuals, regardless of ethnicity, income, or familial educational level, are free to pursue their academic interests in an environment free of bias and obstacles. The center has established a culture and organization with clear values that are completely purpose-driven. In all our work, we aspire to live up to the legacies of the men for whom our programs are named: Ronald Erwin McNair, the astronaut and laser physicist who died in the Challenger disaster, and the late David T. Kearns, who gave unstintingly of himself to the University of Rochester, to the Xerox Corporation, and to the American educational system.

Uniformly, Kearns Center programs generate remarkable results, often surpassing national averages for high school and college graduation rates, college acceptance, and pursuit of advanced degrees.

The staff of the Kearns Center and of the Center for Study Abroad and Interdepartmental Programs will advise students on how a semester, summer, or year of study abroad can enhance and strengthen their goals.

### **Latin Epigraphy**

Rome, Italy: spring break

Taught by N. Gresens of the Department of Religion and Classics, "this one week Spring break course examines the inscriptions and graffiti found in the city of Rome, many of which are still in situ. Through a series of walking tours through the city of Rome we will read and examine the various inscriptions that the Romans have left behind, from the archaic period to the modern period. In addition to reading these inscriptions, we will also discuss the historical and physical contexts of these inscriptions."

### **Living Dance and Creative Expression through Choreography** (at the Summer Programs table)

<http://www.rochester.edu/college/dance/news/>

Corfu, Greece, Summer 2014 Open to students in all majors; no previous experience required. Sponsored by the Program of Dance and Movement.

### **Malawi Immersion Seminar**

<http://www.rochester.edu/College/ANT/malawi/>

Lilongwe: *summer*

"The Malawi Immersion Seminar, sponsored by the University of Rochester Department of Anthropology, is a three week study abroad/field school addressing cultural, health, social, political, and ecological issues in Malawi, Africa using the anthropological method. The seminar provides students with an immersive and transformative summer experience offering a unique focus on experiential learning and training in the methods of field research"

### **Meiji Gakuin University Exchange (at the Exchanges table)**

[http://www.meijigakuin.ac.jp/office/cice/index\\_en.html](http://www.meijigakuin.ac.jp/office/cice/index_en.html)

Tokyo: spring, full year

Meiji Gakuin University was founded in 1877, making it one of the oldest private institutions in Japan. It has two campuses, one in the heart of Tokyo (Shirokane), and the other in the suburban setting of Yokohama. The University has a liberal arts curriculum and offers undergraduate studies in the following departments: art studies, English literature, French literature, psychology, sociology, social work, economics, business administration, law, political science, and international studies. The exchange agreement between UR and Meiji Gakuin allows UR students to spend a semester or year at Meiji Gakuin, while their Japanese counterparts study at UR. The program requires at least one year of college-level Japanese (or the equivalent).

### **Department of Modern Languages and Cultures**

<http://www.rochester.edu/College/MLC/abroad/index.html>

The Department offers four-week, six credit summer study abroad programs in the following locations: Berlin, Quito, Rennes, St. Petersburg.

The St. Petersburg program has no prerequisites; all other sites require 101 and 102 or the equivalent.

### **Mountain Health in Italy**

Borca di Cadore, Italy: *Summer 2014*

This 6-credit field methods course gives students a supervised experience in collecting qualitative, ethnographic data on culture and health in a mountain village north of Venice. Working in partnership with the residents of the Alpine village, Borca di Cadore, we will focus on understanding health and resiliency by doing life history interviews with the elderly residents of the village; working with local high school students on a PhotoVoice project and participating in the activities of the village.

The field school is supervised by Professor Nancy Perini Chin, a public health anthropologist with long experience in working with students at field sites. Her family is one of the original founding families of Borca. Additionally faculty will include Italian anthropologists with expertise in Alpine anthropology, in-depth interviewing, narrative life history taking; geologists with knowledge of the fragile ecosystem and propensity for landslides and earthquakes; and historians.

Undergraduate students in anthropology, public health, and history are especially encouraged to apply. Knowledge of Italian is not necessary.

### **Natural Sciences division**

Are you considering a major or minor in the Natural Sciences? (Archeology, Technology & Historical Structures, Brain & Cognitive Sciences, Biological Sciences, Chemistry, Digital Media Studies, Earth & Environmental Science, Mathematics, Physics & Astronomy, Statistics)  
At this table, you can chat with a faculty member or a study abroad returnee majoring or minoring in the sciences to explore your interests. For example, which programs or countries offer courses or internships that will further your expertise or knowledge? What's the best way to stay on track, especially with courses that must be taken consecutively? How did the student choose his or her program?

### **Office of Minority Student Affairs**

<http://www.rochester.edu/College/OMSA/>

"The Office of Minority Student Affairs (OMSA) provides counseling, disseminates information, initiates programs and serves as a liaison with other departments and divisions of the university to enhance the environment in which minority students live and learn. OMSA is committed to providing these support services to ensure students achieve their academic, personal and career goals at the University of Rochester. Furthermore, OMSA proactively supports the University's efforts to build diversity awareness and promotes an inclusive community for students, faculty and staff."

### **Pontificia Universidad Católica del Peru Exchange**

<http://www.pucp.edu.pe/EN>

Lima: *Fall, Spring, or Full Year*

This integrated program allows students to enroll at the PUCP, which offers a wide variety of coursework, including courses in Andean literature, history, sociology, and archaeology. Students study side-by-side with Peruvian students and benefit from excursions throughout the country during the course of the semester. The program includes an orientation provided by the Office of International Studies at the Universidad Católica. All courses are taught in Spanish, so students need a minimum of five semesters of college-level Spanish, or the equivalent.

### **Rochester City Clerk**

<http://www.cityofrochester.gov/article.aspx?id=8589938026>

<http://travel.state.gov/>

Pick up a U.S. Passport application, or come prepared with completed application materials. Staff of the City Clerk's Office, and a professional photographer, will be on hand to guide you through the process and take in new passport applications. Details and forms are at the websites above.

### **Social Sciences division**

Are you considering a major or minor in the Social Sciences? (African & African-American Studies, American Studies, Anthropology, Archeology, Technology & Historical Structures, Business, Economics, History, International Relations, Linguistics, Political Science, Psychology, Public Health, Women's Studies)

At this table, you can chat with a faculty member or a study abroad returnee majoring or minoring in the Social Sciences to explore your interests. For example, which programs or countries offer courses or internships that will further your expertise or knowledge? How did the student choose his or her program? Where are the best places to explore your interest in developing economies? If interested in law school, is it an advantage to seek a legal internship overseas?

**University of Sussex Exchange, England** (at the Exchanges table)

<http://www.sussex.ac.uk/international/>

Sussex: *fall, spring, full year*

This exchange program with Sussex allows UR students majoring in Brain and Cognitive Sciences an opportunity to broaden their academic and cultural horizons by spending a semester or year in Britain while still pursuing their BCS curriculum and taking courses that supplement that course of study. Sussex is made up of several schools, so courses are exceptionally interdisciplinary in nature. The School of Biological Sciences, through its Experimental Psychology program, offers a program of study essentially equivalent to that offered by Rochester's [Department of Brain and Cognitive Sciences](#). Experimental Psychology at Sussex is an internationally known center of excellence in teaching and research in the study of behavior as a natural science. For information, contact Brain and Cognitive Sciences, Meliora 358, 275-1844.

**Technion- Israel Institute for Technology**

[http://www.ise.technion.ac.il/category/Study\\_Abroad](http://www.ise.technion.ac.il/category/Study_Abroad)

Haifa: *spring*

The Technion - Israel Institute for Technology is one of the world's top science and technology research universities. Study in English at the School of Engineering. Open to Junior ME majors. Contact your HSEAS advisor for more information.

**Theater in England** (not attending)

<http://www.rochester.edu/College/ENG/england/>

London: *'winter' term*

This is a "winter term" course organized by Professor K. Mannheimer of the English department. The program allows students to attend a rigorous and delightful schedule of theatrical productions in London and Stratford, accompanied by readings and background lectures. For information, contact the English department, Morey 402, 275-4092.

**United States Foreign Service** (on the Bridge Lounge)

<http://careers.state.gov/officer#.UQhWcOIlvkw>

Meet a US Foreign Service Officer who is manager of the US Passport Agency in Buffalo, New York.

**University of York Exchange** England (at the Exchanges table)

<https://www.york.ac.uk/students/support/international/>  
[www.york.ac.uk/study/study-abroad/visiting/applying/planning/](http://www.york.ac.uk/study/study-abroad/visiting/applying/planning/)  
York: fall, spring, full year

Spend a semester or year at the University of York in the north of England. You may take courses in a variety of disciplines and departments, including the natural sciences and engineering.

**Uppsala University Exchange** (at the Exchanges table)

<http://www.inter.uadm.uu.se/>  
Uppsala, Sweden: spring, full year

Uppsala University, founded in 1477, was the first university in Scandinavia. Today, the University has more than 30,000 undergraduates, and is one of the great European student cities. There are courses available, taught in English, in the humanities, social sciences, and the natural sciences. There is no Swedish language requirement. Students join "nations," which are social clubs. Available to sophomores and juniors.

**UR Libraries**

Find out how you can use our Library resources while you're studying overseas.

**Warner School of Education**

Learn about an exciting new opportunity for undergraduates: A Certificate in TESOL (Teaching English to Speakers of Other Languages).

Rev. 1/29/14
