Please submit a detailed description (not more than 5 double-spaced typewritten pages) of your Senior Scholars Project. Be as specific as possible about the plan of the project and the time and resources it will take to complete it in your senior year. Discuss why your project cannot be completed by four or eight credits of Independent Study. Explain why you think you have the skills to complete the project and how you conceive it to be a meaningful conclusion to your Rochester education. **The application, along with the supervising faculty advisor's recommendation, and a résumé is due in Lattimore 206 on April 15.**

You will be notified after your proposal has been reviewed. If the proposal is accepted, the Center for Study Abroad and Interdepartmental Programs will register you for CAS 397A *Senior Scholars Research* on an Independent Study Form.
