Congratulations Class of 2020
Congratulations class of 2020 for completing this part of your educational journey. You’ve all acquired what I think is critically important, you’ve all acquired the ability to think independently and critically, you’ve acquired the ability to learn how to overcome challenges. Your struggles, your tenacity, and your hard work paid off. And if you can be successful today in these trying times, I have no doubt that you will excel in your future roles do always bear in mind that the key to success in life is not to get ahead of other people, but to get ahead for the greater good. Again Congratulations class of 2020!
Our present moment provides examples of how being a responsible member of our local, national, and world communities requires knowledge, character, and an awareness of how we are always linked to others. As graduates of the University of Rochester, you exemplify these characteristics and now bring transformative potential to the world. The brightest of futures awaits you, and we all will share in, and be lifted by, your successes. Congratulations.
Congratulations Class of 2020! Although this is not how you envisioned the culmination of your efforts, through perseverance, academic excellence, social justice, cultural humility, and because of your steadfast ways! YOU DID IT!
