

All numbered problems are from Freedman, Pisani and Purves, 4th ed. Problem set is due Thursday, Sept. 22nd at the beginning of class. You must show your work (on problems that require it) to receive credit. Please write legibly.

1. Consider the theoretical construct presidential power. Suggest two different operational definitions for it and speculate as to how the results might differ.
2. For each measure from the previous questions, describe the types of systematic and random error that might be expected to influence the scores.
3. Chapter 3 review exercises
 - #2, #7, #8, #12
