Controversies in Public Policy

The primary objective of this course is not to convince you one or the other side of a controversy is the right one. Rather, it is to make sure you know the arguments on both sides of the issue.

The requirements for this course include two papers of moderate length (6 pages) and a longer research paper (10-12 pages). The schedule for these is listed on page 4. Papers handed in late will have their grades reduced. To pass the course all assignments must be submitted. Students are expected to attend class and use materials from lectures and the assignments when writing the papers. The only book for purchase is Controversies in American Policy edited by Hird, Reese, and Shilvock. Most all the rest of the readings are on web sites with links in the syllabus.

Since this is a new course the dates for the controversies may be adjusted as needed.
