STRONG TECH REHEARSALS

Standard and **Advanced** performances in Upper Strong Auditorium have one built-in Tech Rehearsal. A "Tech" is a **Five to Six Hour Rehearsal** where a group and Event Support Technicians are working together in the space on the technical elements of a performance. Tech time can include *Lights, Sound, and Video Cueing time, Sound Checks, a Cue-to-Cue, Dress Rehearsals,* and other technical aspects. Tech Rehearsals are separate from the Performance time, which normally begins with a pre-show system check an hour before the performance starts. **It is important for the tech process that performing members of the piece being "Tech'd" are available to be on stage for accurate lighting positioning and those that play instruments be available for audio *in addition* to the group members involved in the light and audio design of the piece.**

Performances with **One Built-in Tech Rehearsal** normally follow one of two schedules:

1: Thurs TECH, Fri SHOW

2: Sat Afternoon TECH, Sat Evening SHOW

Typical timing for single tech rehearsal shows can be found below

Examples of an **Additional Tech Rehearsal** would be:

1: Fri TECH, Sat Afternoon TECH, Sat Evening SHOW

2: Thurs TECH, Fri TECH, Sat Evening SHOW

<u>Thurs TECH, Fri SHOW Schedule</u>

Thurs TECH
5:30p Crew arrives, check systems, sweep stage, dressing room unlock
