Ambulatory Center officially opens

University officials hosted a ribbon-cutting ceremony on Thursday, June 13, to officially mark the completion of the Ambulatory Center at the University of Rochester. Construction of that project began in April 1994. The Ambulatory Center is “consistent with our strategic plan for maintaining excellent facilities for the care of our patients and for strengthening the linkages to our community-based, primary care facility and referring physicians,” said Jay H. Sturin, senior vice president and vice provost for health affairs.

The new building—222,645 square feet of state-of-the-art outpatient facilities—“will enable the hospital to stay ahead of the changes in health-care provision,” said hospital chief executive officer Leo P. Bridirea. “As we see a shift from an inpatient to outpatient setting, this community can look to Strong Memorial Hospital with its new Ambulatory Center to provide the highest-quality care.”

Combined with the hospital’s new parking garage and lobby, the seven-story center offers convenience and easy building access, 24 services, which have moved from facilities within the hospital or to outpatient facilities and office space in the community.

The outpatient programs and services in the Ambulatory Center and throughout the Medical Center are run by Randolph B. Schiffer, director; Betsy Slavinskas, associate nursing director; and Pamela A. Lufkin, associate administrative director.

Sanders is undergrad admissions dean

Neil E. Sanders, dean of undergraduate admissions at Vanderbilt University, has been named College dean of undergraduate enrollment policy and management. In that role, he will oversee admissions and financial aid programs for the College’s undergraduate body.

“In a very strong field of candidates, Neil Sanders stood out as an exceptional individual,” said Provost Charles E. Phelps. “We’re delighted to have him.”

Sanders will report to the provost and maintain a close working relationship with the College dean.

At Vanderbilt, undergraduate applications increased by more than a third during Sanders’ seven-year tenure. The geographical and racial diversity of the applicant pool has increased by more than a third during Sanders’ tenure. The quality of students as judged by test scores, class ranks, and high school grade point averages also increased significantly during that time.

LLE establishes high school award

The University’s Laboratory for Laser Energies (LLE) is establishing a teaching award for a local high school teacher who has instilled in his or her students an enthusiasm for science and technology.

Outstanding teachers have helped mold the dozen of high school students from the Rochester area who have participated in the laboratory’s summer research program during the past six years. These students have attended seminars and performed research in a wide variety of areas, including optics, fusion, and related technologies. Some students have even won national science awards for their work, and several are now pursuing careers in science.

For more information or to nominate a teacher, call x5205.
In Brief

Tennis anyone? Tennis lessons are available at the Medical Center Athletic Club for $7.50 per hour. The programs are for all skill levels. For more information, call x5-2347.

Creating Web pages

The University Computing Center is sponsoring workshops on developing World Wide Web pages. Each class will take approximately one-and-a-half hours and will take place in Room 2-235, Memorial Art Gallery.

- HTML for Beginners—Hypertext Markup Language is used to format documents for the Web. The class will cover HTML basics. Prerequisite—a some experience with a Web browser such as Netscape. Wednesday, July 7, 10 a.m. to 1 p.m.
- Advanced Web Authoring—Hands-on class providing instruction on creating images using Adobe Photoshop and color scanners. Monday, July 28, 2-7 p.m.
- Advanced Web Authoring—Forms and Scripts—Instruction on using HTML forms and some Perl to create forms using scripts. Wednesday, July 24, 10 a.m. Participants may take a single class or a series. Classes are free for College students. Registrations are due at the beginning of August. All classes are free to all participants. For more information, register by June 25, 23-4480.

Bristol Harbour

Bristol Harbour is now offering University employees $5 off regular meals—anytime through Sunday from 3 to 4 p.m.—for its 18-hole, Robert Trent Jones Championship Golf Course. In addition, employees receive $10 discount on a three-hour golf cart for preferred groups of four to six golfers. Brochures are available in Room 2-223, Medical Center. Call 396-2960 with questions.

Education technology

Several major computer and computer hardware companies will present their wares for educators at a technology fair on Tuesday, July 9, from 9 a.m. to 9 p.m., in the Music Room, Reynolds Center. Exhibitors will include Apple, Compaq, Compaq, IBM, Nortel, Hewlett-Packard. The fair is open to the public. For more information, call 392-8790.

Vella, Luitich cited as adult students

In recognition of academic achievement and commitment to education, two adult students at the University have received the Rochester Area Colleges Continuing Education (RACCE) Outstanding Adult Student Award.

The awards are given to full-time college students with Phi Beta Kappa membership. Scholars are chosen to make two-day visits to the universities and colleges with Phi Beta Kappa and to meet with distinguished students. One of the 13 Phi Beta Kappa Visiting Scholars has been named one of 13 Phi Beta Kappa Visiting Scholars. The commission represents New York’s 107 independent colleges and universities.

In addition to meeting with university faculty, the visiting scholars are among 30 selected by national committees of distinguished students to make two-day visits to Phi Beta Kappa universities with Phi Beta Kappa Visiting Scholars. The commission represents New York’s 107 independent colleges and universities on issues of public policy.
