Multicultural Affairs and Inclusion (MCAI)**

Reach Back and Bring Someone Along

Vision

For University employees that are African-American, Caribbean, or other Islanders, those who identify with African decent, and others who consider themselves people of color, to be accepted, valued and integrated into all aspects and levels of development of the University of Rochester.

Mission Statement

To support the growth, and development of the above members. To establish representation within the University community that will foster and strengthen workplace effectiveness and leadership abilities; enhancing professional development and promoting career growth and success within the University; achieving this goal through recruitment, retention and mentoring.

Foundation

The African American Network @ the University of Rochester is based at the Medical Center of the University and open to all its affiliates (River Campus and Off– Site).

The establishment of the group is the combined vision of Ulandus Powell-Quinn and Janice Holland, who recognized the need of African American and all people of color to attain personal and professional development within the University and community.
