Evacuation Assistance Form

Voluntary Self-Identification

If you have a disability which may impede your ability to evacuate in the event of an emergency the University of Rochester's Environmental Health and Safety department would like to work with you to create personalized evacuation plans for the locations in which you live, study and work.

Please complete this form and contact EH&S at (585) 275-3241 to discuss creating a personalized evacuation plan. This information you share during this process will be kept confidential and used only by Environmental Health and Safety, Residential Life (if applicable), the Department of Public Safety and local police and fire officials responding to a building emergency.

In the event of an emergency evacuation, we ask that you go to the nearest area of rescue assistance, if possible, and press the emergency alarm button. This will inform emergency officials of your location.

If you no longer require assistance or your assistance needs change, please submit an updated form at your earliest convenience.

Name:________________________________________

URID: _______________________________________
