URWireless Acceptable Use Policy

The wireless network at the University of Rochester provides network connection services to River and South campus areas in support of the educational mission of the University. It is the responsibility of each person to use these services appropriately and in compliance with all University, local, state and federal laws and regulations. Access is a privilege that can be revoked at any time due to misuse. By connecting to this resource, the user agrees to the terms and conditions of this Acceptable Use Policy, related University of Rochester computer use policies and other applicable Conduct Codes.

The University has adopted the following regulations on the use of the wireless network:

- Wireless services, equipment, wiring or jacks may not be altered nor extended beyond the location of their intended use. The wireless network may not be used to provide access to University information systems for purposes other than those that are in direct support of the academic program of the University. The wireless network may not be used to provide access to the Internet by anyone not formally affiliated with the University.
- Any receipt, retransmission or destruction of software or data must observe
