

Federal RePORTER

A new release of Federal RePORTER is now online. Federal RePORTER contains detailed, searchable data on Federally funded science projects, grants, and awards. The link for this website is <http://federalreporter.nih.gov/>

The new release greatly expands the number of agencies in Federal RePORTER. Additions include:

US Department of Agriculture research agencies:

- Agricultural Research Service (ARS)
- National Institute for Food and Agriculture (NIFA)
- US Forest Service

Health and Human Services operating units:

- Centers for Disease Control and Prevention (CDC)
- Food and Drug Administration (FDA)
- Administration for Children and Families (ACF)
- Agency for Healthcare Research and Quality (AHRQ)

Department of Defense programs:

- Center for Neuroscience and Regenerative Medicine (CNRM)
- Congressionally Directed Medical Research Programs (CDMRP)

Department of Veterans Affairs research:

- Department of Veterans Affairs (VA).

These additional agencies are searchable alongside those that made their information available previously in Federal RePORTER:

- National Institutes of Health (NIH)
- National Science Foundation (NSF)
- Environmental Protection Agency (EPA)
- National Aeronautics and Space Administration (NASA)

In addition to allowing users to search a wide swathe of Federal research simultaneously, Federal RePORTER features a number of tools for search, discovery, and visualization. These include a flexible search interface, charts, maps, and hierarchical topic groupings based on descriptive text about the project.

More information is available in a recent blog post by Sally Rockey, NIH Deputy Director for Extramural Research. You can find the post at <http://nexus.od.nih.gov/all/2014/09/23/federal-reporter/>

RePORTER is a website within a larger NIH website called “RePORT”. Along with a link to RePORTER, the RePORT website includes links to other valuable information including success rates , the NIH Data Book and Awards by Location. RePORT can be accessed here:
