

OHSP Update

CLASP – 11/29/2022

IRB Fee Structure

Updated 07/01/2021

Kelley A. O'Donoghue, AVP for Human Subject Protection

UNIVERSITY *of* ROCHESTER

3 applicable situations

1. UR Reviewing IRB for multi-site research
 - Based upon request, not guaranteed – submit [eReliance Request Form](#)
 - Budget meeting with OHSP before funding proposal submitted to ensure IRB costs are included in submission
 - No charge for non-UR sites receiving data only
2. UR Reviewing IRB for single-site (UR only) research
 - Industry and foundation funded only
3. UR Relying Institution for industry funded research
 - \$1,000 one time fee for institutional review

Waivers

- Fees may be waived
 - Typically requested based upon small budget amount (for both industry and foundation funded)
- Considered on a study-by-study basis
- PI must submit a request to the IRB Director with justification for waiving fees

Additional Considerations

- Yes we charge for foundation funded studies, but there is a waiver process for low budget grants.
- We are now able to obtain GR/FAO accounts for a study with the integration in IORA.
 - But will confirm account before we submit the charge

Additional Considerations

- MODCR – charge for both the CR and the modification
- Modifications
 - No fee for study personnel or minor administrative/editorial changes
 - We try to be sensible, but this is not a free for all when it comes to modifications...plan accordingly in budgeting
- No charge for reports of new information
