Safety First!

• Ride with traffic and obey the same laws as motorists.
• Use the rightmost lane that heads in the direction that you are traveling.
• Obey all traffic control devices, such as stop signs, lights, pedestrians, and one-way markings.
• Always look back and use hand and arm signals to indicate your intention to stop, change, or turn.

When Riding a Bicycle:

• If people are on the sidewalk or trail, be patient and polite.
• Slow down and communicate your intentions.
• When passing a pedestrian, it’s preferable to pass on the left. Don’t pass and advise them, “On your left” noise pays without warning.
• Bicyclists and pedestrians share the sidewalk. The sidewalk can get crowded, it may be best for you to walk your bike.

Do Not:

• Ride where drivers can see you.
• Wear brightly colored clothing in black.
• At night, use white front light and red rear light or reflector. Wear reflective tape or clothing.

Anticipate Conflicts:

• Be aware of traffic around you and be prepared to take evasive action.
• Learn bicycle and turning techniques to avoid crashes.
• Be extra alert at intersections.
• Be cautious.

Make sure that the helmet fits on top of your head, not on your neck or forehead.
• After a crash or any impact that affects your helmet, replace it immediately—a helmet that is damaged is unable to provide adequate protection.

The need for increased conversation was

have inspired the 2012 photograph of

President Allen Valentine, who would

have been on a bicycle riding from his days at Oxford.
