MEDICAL EDUCATION

Match Made in Medicine

SETTING THE STAGE: Nichole Roxas '18M (MD) reacts after learning that she is heading to Yale-New Haven Hospital for the next stage of her medical education. Roxas, who plans to train as a child and adolescent psychiatrist, joined 100 of her classmates at the School of Medicine and Dentistry during this spring's Match Day, an annual event in which medical students across the country learn where they will go for residency training. **PHOTOGRAPH BY MATT WITTMAYER**
