About the Susan B. Anthony Center

The Susan B. Anthony Center works to bring awareness to and advocate for social justice and equality.

We work in collaboration with the university community and partner with a wide range of local, national, and international organizations to fulfill our goal of translating research into policy.

We conduct this work in the spirit of Susan B. Anthony, who fought tirelessly throughout her life for the betterment of disenfranchised populations.

The center provides student grants for research and conferences and has funding available to student groups for social-justice-related events. Also, each year we administer the university’s undergraduate women’s leadership awards and host the awards ceremony.
