Cutover Activities on Track, vol. 7

This bulletin has been designed to help you prepare for UR Student user activities as the system is prepared for production use. A copy of all UR Student Newsletters will be located on the [UR Student Project Newsletter](#) page.

Our next update will be provided Friday, February 7th.

UPDATES

- Student Bio/demo information has been loaded into production
- Cutover activities are on track; the project team has daily "stand ups" with the Project Champions from the schools to keep them updated on progress
- 53 attendees completed the UR Student Registrar & Records training this week

IMPORTANT REMINDERS

- Schools should have started keeping track of any changes made in the legacy SIS, so that they can "catch up" with these transactions when UR Student is live on Monday, February 17TH

PLEASE NOTE: The only administrators working in UR Student are registrars, course administrators, and staff assisting with data cleanup activities. Students, instructors, advisors and other records administrators will cutover starting in February. The Bursar's Office and Student Finance personnel will be impacted starting July 2020.

HELPFUL LINKS

UR Student in the IT Service Catalog (create a service request) - http://tech.rochester.edu/services/urstudent
UR Student project site - http://www.rochester.edu/urstudent
Training calendar - http://www.rochester.edu/urstudent/training/
Rollout plan - http://www.rochester.edu/urstudent/cutover/

NOTE: www.rochester.edu/urstudent will be redirected to the UR Student application starting February 17th; the project site will still be accessible at www.rochester.edu/urstudent/project

This communication is going out to the Student Systems Steering Committee, UR Student Project Team, Project Champions, Special Interest Groups, anyone who subscribed to the UR Student newsletter on our [website](#) and anyone who has already attended training.

Thank you,

UR Student Team
