UNIVERSITY OF ROCHESTER

ONE HUNDRED FIFTY-THIRD

COMMENCEMENT

SATURDAY, MAY SEVENTEENTH & SUNDAY, MAY EIGHTEENTH

TWO THOUSAND THREE
A Rich Tradition at Rochester

The commencement season has always stood out as the “supreme festival” on Rochester’s academic calendar, Arthur May notes in his history of the University. From the earliest years, he writes, “Oratory flowed in full spate, the literary societies put on their finest performances, trustees convened for annual decision-making, and prizes and diplomas were handed out amidst a panoply of pomp and circumstance.” Though the size of the graduating class has grown from 10 men in 1851 to more than 2,000 men and women today, and though many other developments have reshaped the ceremonies, today’s program, like 1851’s, marks the happy celebration of each graduate’s academic preparation and the hopeful prospect of new ventures.

The gowns have a long history
Some of the features in today’s ceremony date back to medieval times, such as the academic attire, which recalls the gowns that were required dress at many European universities. Yet academic regalia did not figure into Rochester’s earliest commencements: Both here and at other American universities, wearing the gowns was thought to be undemocratic, possibly because a university education was associated with European upper-class privilege. For a number of years only the president and the person who carried the diplomas wore the gowns; the graduating class did not wear them until 1892.

Many schools have adopted doctoral gowns that also reflect the institutions’ colors. The University of Rochester doctoral candidates are wearing gowns in the official colors of blue with dandelion-yellow trim and berets of soft black velvet. Many of the faculty today wear the gowns of their alma maters, including the maroon of Chicago, the scarlet of Stanford, the orange and black of Princeton, and the gray of M.I.T., among others.

The hood’s color is the clue
The most colorful portion of the academic costume is the hood. The color edging indicates the discipline to which the degree pertains: white and yellow-gold for arts and sciences; orange for engineering; apricot for nursing; green for medicine; pink for the Eastman School of Music; light blue for the Margaret Warner Graduate School of Education and Human Development; and drab for the William E. Simon Graduate School of Business Administration.

Symbols of authority
The mace, originally a medieval weapon of defense, has in modern times become a symbol of authority, dignity, and privilege. English universities have used maces in academic processions for many centuries; Rochester’s mace first appeared at the 1935 induction of Alan Valentine as president and has been used in academic processions ever since. About four feet long, it is made of mahogany and hand-wrought silver. On the head, the seal of the University appears. The names of the University’s presidents are engraved on two silver bands, and the dandelion, the floral symbol of the University, is the decorative motif of the silverwork. The mace is carried by the University marshal, who leads the procession alongside an associate marshal carrying the less imposing baton.

Words to live by
Commencement speakers have been inspiring Rochester graduates ever since Henry Ward Beecher gave a speech on “Character” at the 1851 ceremonies. Theodore Roosevelt, then governor of New York, spoke in 1900; New York Governor Mario Cuomo spoke in 1985, and another holder of the governor’s seat, Thomas E. Dewey, spoke in 1957. Richard Nixon gave advice to 1966’s graduates, and British Prime Minister Winston Churchill, accepting an honorary doctorate by transatlantic radio during 1941’s commencement, pleaded for Anglo-American unity in a characteristically rousing speech.

Happy at heart on this day
Perhaps the single feature that best links today’s ceremonies to 1851’s commencement is the audience. From 1851 onward, enthusiastic crowds have turned out to cheer on Rochester graduates. Newspapers say thousands of spectators witnessed the first commencement when Scott’s Brass Band led a parade toward Corinthian Hall. Following the band, “presumably in ascending order of dignity,” Arthur May notes, were the University janitor, Rochester schoolchildren, undergraduates, teachers at the common schools, Board of Education representatives, the mayor and his top lieutenants, officials of state and county governments, University founders, courtroom judges, the 10 graduating seniors, professors, trustees, the chancellor, and the high sheriff of Monroe County.

Among today’s thousands of spectators, many are as distinguished and, no doubt, as full of pride as the onlookers of 1851.
Hutchison Medal
Myles Brand

Myles Brand ’67 (PhD), the most powerful man in college sports, may have an eye on the scoreboard, but it’s the chalkboard that has his full attention.

The former Indiana University president recently took a leave of absence from his academic position to head the National Collegiate Athletic Association (NCAA). As the first former university president to head the sports organization, Brand has made clear his intention to address many controversial issues, including protection of Title IX as well as the widening gap between the playing field and classroom.

A Brooklyn-born philosopher whose internal compass seems always to point to the daunting challenge, Brand is driven by the sense that “good enough will never be good enough.” After earning a bachelor of science degree in philosophy from Rensselaer Polytechnic Institute in Troy, New York, in 1964, and his Ph.D. in philosophy from Rochester, Brand took his first teaching position at the University of Pittsburgh, where he became assistant chair of the philosophy department in 1971. A year later Brand headed to Chicago where he led the University of Illinois philosophy department to national prominence.

A pursuit of excellence has characterized Brand’s career in various administrative positions, including those as dean at the University of Arizona, provost and vice president of academic affairs at Ohio State University, and president of the University of Oregon from 1989 to 1994, and when he became president of Indiana University.

In the Hoosier state, Brand oversaw eight university campuses with more than 90,000 students and orchestrated the largest single privatization effort in Indiana history, consolidating the Indiana University Medical Center Hospitals and Methodist Hospital to form Clarian Health. Brand also signed a first-of-its-kind licensing agreement with Microsoft Corporation, providing students, faculty, and staff free access to Microsoft products.

Colleagues have described Brand’s tenure at Indiana as the epitome of leadership—exemplified, some say, by the well publicized firing of the volatile yet successful men’s basketball coach Bob Knight. Brand made the pivotal and difficult decision to fire Knight in September 2000 triggering protests and criticism but also earning him praise both in the halls of academe and in some locker rooms across the country.

As the new NCAA president, Brand hopes to bring a fresh perspective to divisive issues in college sports such as gender equity, overcommercialization as well as graduation rates and academic standards for athletes. “I intend to take a leadership role,” says Brand, “to be a strong advocate with positive values for intercollegiate athletics.” And, some might add, once again push the boundaries of “good enough” to discover there may be something much better.

Eastman Medal
Ralph Snyderman

Ralph Snyderman has a vision for health care in America. The chancellor for health affairs and president and CEO of Duke University Health System, Inc. has been enacting that vision for more than a decade at one of the nation’s premier academic medical centers, putting Duke, as Snyderman says, in a position to become a model for health care of the future.

An immunologist born in Brooklyn, New York, Snyderman began his medical career at Duke and would later spend much of the 1970s and 1980s on the faculty of the rheumatic and genetic division of Duke’s medical school. It was no surprise when he returned to Durham in 1989 to lead Duke’s medical center and health system to national prominence.

As chancellor, Snyderman has instituted several major initiatives to, in his own words, “transform how care is delivered.” Included is the development of the Institute for Genome Sciences and Policy, where research in genomics is applied to improve risk assessment for patients, and the creation of the Duke Clinical Research Institute, the development of which has helped increase National Institutes of Health funding to the Duke health system from $85 million in 1989 to $203 million last year.

Snyderman, who early in his career worked as a Public Health Officer for NIH conducting research into immunology and the mechanisms of inflammation, namely how white blood cells respond to inflammatory signals—research that led to worldwide recognition and a lifetime Achievement Award from the Arthritis Foundation, Eastern Region—places a high premium on the concept of “prospective health.” This idea of combining research, risk assessment, and practical ways of delivering quality care is the cornerstone of Snyderman’s vision for a health care system that does not only treat but predicts and prevents disease.

“I think a fundamental change in the nature of our medical center has stemmed from our attention to societal relevance, finding the practical value for what are otherwise academic missions,” said Snyderman in a recent interview. “We have truly moved toward applying all of our academic core mission to improving the health of our society. And because of that I believe [Duke’s] medical center is on the threshold of being able to accomplish things that really haven’t been possible before.”

As Snyderman enters his last year as chancellor, he plans to spend his remaining tenure perfecting models of health care that he believes will one day make medical care more affordable and effective not just for the people of North Carolina but for all Americans.
Honorary Doctor of Humane Letters

John A. Williams

By the time John A. Williams published his masterpiece *The Man Who Cried I Am* (1967), the Mississippi-born novelist had already served in the U.S. Navy on the Pacific front during World War II, earned a bachelor’s degree in journalism from Syracuse University, and worked in both Europe and Africa as a correspondent for *Jet* and *Newsweek*. But in the divisive social and political atmosphere of 1960s America, Williams’s novel introduced many to a new voice in African-American literature.

Branded by some as a wrathful emblem of the black nationalist movement, Williams’s ambitious novel is considered by many scholars to be one of the most authentic glimpses into the 20th-century African-American reality. A novelist, essayist, poet, and journalist—described by James de Jongh in the *Dictionary of Literary Biography* as “arguably the finest Afro-American novelist of his generation”—Williams, throughout his notable career, has persistently taken aim at the social injustices African-Americans have faced in a white-oriented society. His work has unflinchingly revealed from an insider’s perspective the subtle and salient toll such injustices can exact on a race of people.

Recognition for his work includes an award from the National Institute of Arts and Letters, two American Book Awards, a National Endowment for the Arts grant, and induction into the National Literary Hall of Fame.

In addition to a writing career that includes more than 21 fiction and nonfiction works and numerous articles and short stories, Williams has flourished as a teacher and lecturer, holding positions at many universities such as Macalester College, Boston University, the University of Houston, and most recently Rutgers University, where he was professor of English, journalism, and creative writing, and where he retired in 1994 as the Paul Robeson Professor of English.

At 77, Williams continues to carry on the legacy of those African-American literary giants who have gone before him—James Baldwin, Richard Wright, and Ralph Ellison, to name a few—and to actively support new voices in African-American writing.

---

Honorary Doctor of Science

Kenneth Olden

In a 1998 article in *The Scientist*, Kenneth Olden made a defining statement: “It is possible to serve the public better, particularly the disadvantaged and minority populations who so often bear the greater burden of environmental hazards.”

The first African-American to serve as director of one of the 19 National Institutes of Health institutes, Olden has spent the last decade leading the National Institute of Environmental Health Sciences of the National Institutes of Health and the National Toxicology Program in Research Triangle Park, North Carolina.

His appointment has been defined by a vision attuned both to the immediate health issues affecting people’s lives today and the promise science holds for the future. As director, he has tenaciously battled on both fronts with new initiatives such as nationwide town meetings that give community members a chance to discuss local and national issues with experts and policy makers.

On the scientific front, there is no stronger advocate for funding genetic research than Olden, who oversaw the development of the Environmental Genome Project, designed to study the complex relationships between genetics, environmental factors, and diseases, as well as the National Center for Toxicogenomics, which seeks to apply advances in genetic technology to the testing of chemicals and the study of environmentally related disease.

Olden earned a bachelor’s degree from Knoxville College, a master’s degree at the University of Michigan, and his Ph.D. from Temple University, with research done in the biology department under his mentor Walter Hempfling at Rochester. The cell biologist and biochemist has spent his career making important contributions to understanding cell and cancer biology, evidenced by his 1994 elected membership into the Institute of Medicine of the National Academy of Sciences.

Olden has received the Presidential Distinguished Executive Rank Award and the NIH Quality of Life Award. Prior to taking the directorship at the National Institutes of Health, Olden was director of the Howard University Cancer Center and professor and chairman of the Department of Oncology at Howard University Medical School. He also has authored and coauthored more than 100 publications and was named by President Bush to the National Cancer Advisory Board in 1991.
Rochester Distinguished Scholar Award

Jack E. Crow

Jack Crow ’67 (PhD) is a scientist with a salesman’s knack for persuasion. In 1990, the physicist managed to garner the support and cooperation of an august group that included several university presidents, the governor of Florida, and the National Science Foundation to move the National High Magnetic Field Laboratory from MIT to Florida State University and build it into an internationally renowned research operation.

“I know of no individual more responsible than Jack for bringing this laboratory from Cambridge to Tallahassee,” says Florida State Vice President for Research Raymond Bye. “With the assistance of a marvelous staff, Jack has overseen the evolution of this laboratory into the preeminent facility of its kind in the world.”

Under Crow’s direction during the past decade, the lab, which houses one of the world’s most comprehensive assortments of high-performing magnet systems, has attracted some of the top international scientists for advanced research in physics, biology, bioengineering, chemistry, geochemistry, biochemistry, materials science, and engineering. The lab is the only one of its kind in the United States and one of only nine such facilities in the world.

Born in the small western New York town of Angola, Crow had planned to be an engineer, graduating at the top of his engineering class at Cleveland State University in 1962. But at Rochester he discovered the world of magnetism and superconductivity, earning a doctorate in experimental condensed matter physics under Professor Ron Parks in 1967.

From Rochester, Crow embarked on an impressive scientific career that has included appointments at the National Science Foundation and at Temple University, where he chaired the physics department and directed the Center for Materials Research. In addition, Crow has been a prolific researcher, publishing more than 200 scientific papers, and a committed mentor, guiding countless graduate and undergraduate researchers.

Crow, who recently announced he is stepping down as lab director, is as focused as ever on advancing the science of magnetic-related technologies. His job, he says, seems more like a hobby because he enjoys it so much. After all, he points out, what could be more fun that exploring the frontiers of science and seeing and doing things people have never seen and done before.

University Award for Excellence in Graduate Teaching

Martin A. Gorovsky

Evidence of Martin Gorovsky’s success as a teacher and mentor are not difficult to find. In fact, evidence exists in abundance in classrooms, lecture halls, labs, and research centers all across the country, places where his former students now teach and inspire and discover as leaders in their fields.

The Rush Rhees Professor of Biology began his teaching career at Rochester in 1970 and since has mentored 23 doctoral students, many of whom credit him with single-handedly shaping their careers. Students like Laurie Stargell ’88, ’94 (PhD), associate professor of biochemistry and molecular biology at Colorado State University, say Gorovsky’s passionate pursuit of knowledge is inspiring. “He was perpetually challenging me to think more critically about my studies. Marty’s influence and input profoundly impacted the development of my scientific skills as an independent researcher,” says Stargell.

Colleagues such as molecular and cell biology expert C. David Allis, a postdoctoral fellow in Gorovsky’s lab and the former Marie Curran Wilson and Joseph Chamberlain Wilson Professor of Biology at the University, echo that sentiment. “Anyone who steps foot into the Gorovsky lab is in for a special ride; often one gets an experience that stays with you for the rest of your career,” says Allis, who is now the Byrd Professor of Biochemistry and professor of microbiology at the University of Virginia.

Born in Chicago in 1941, Gorovsky earned his Ph.D. from the University of Chicago in 1968. Before taking a faculty position at Rochester, Gorovsky worked as a National Science Foundation postdoctoral fellow at Yale University. His areas of research have centered on cell and molecular biology, namely the role of chromatin in gene expression. Science named Gorovsky’s recent research of the single-celled ciliate Tetrahymena part of the 2002 Breakthrough of the Year for revealing new information on the role small RNAs play in DNA rearrangements.

As a teacher, Gorovsky says his primary role is to identify good questions, design experiments to answer those questions, know the strengths and limitations of data, and formulate the next good question.

Joanna Olmsted, professor of biology who has taught graduate courses with Gorovsky, says that his classroom presence is defined by passionate scholarship and the deepest desire to immerse himself and his students in a subject he loves.

“Marty typifies overall what an excellent graduate teacher and mentor does,” says Olmsted. “He provides students with a model of how rigorous and creative science gets accomplished and conveys one’s own engagement with the joy of scientific discovery.”
The Carillon and Carillonneur

The Hopeman Memorial Carillon is located in the landmark tower of Rush Rhees Library. It is one of only six carillons in New York State. Weighing almost three-and-a-half tons, it consists of 50 stationary cast-bronze bells that are sounded by clappers. Each clapper is connected by a half mile of thin metal rod to one of 48 wooden keys or 26 pedals. The carillonneur sits on a bench and plays by depressing the keys with loosely clenched hands. The pedals, connected to the heavier bass bells, are depressed with the feet. As with a piano, expressive playing is achieved by varying the touch.

In addition to its frequent use as a performance instrument, the Hopeman Carillon has been an educational resource: Students of acoustics and physics of music have studied its reverberations, Eastman faculty and student composers have written for it, and students and alumni study carillon technique on it.

The carillonneur is Daniel Harrison, associate professor of music in the College and of music theory at the Eastman School of Music. He is also the composer of the Rochester Quarters, the chime that the instrument automatically rings out every quarter hour around the clock.

The G. Graydon ’58 and Jane W. Curtis Award for Excellence in Teaching by a Nontenured Member of the Faculty

Wendi Heinzelman

Since graduating from MIT two years ago, Wendi Heinzelman has made a name for herself at Rochester as a teacher and researcher with a passion for engineering and for sharing her expertise with her students. As assistant professor in the Department of Electrical and Computer Engineering, she has created two courses in the specialized field of wireless communications and digital signal processing.

“Professor Heinzelman has already earned a reputation as a committed teacher and advisor to undergraduate students,” says Philippe Fauchet, Distinguished Professor and chair of electrical and computer engineering. “She is well on her way to becoming a top-notch teacher and researcher.”

It’s a sentiment seconded by her students in evaluations and testimonials that repeatedly praise Heinzelman’s ability to make the difficult subjects she teaches accessible and exciting to those in her classes. “She knows what she is teaching, and this fact becomes readily apparent . . . . She enjoys teaching and passes that enjoyment of the subject off to her students,” said one student on a recent evaluation.

At MIT, Heinzelman worked on algorithms and protocols for wireless sensor networks and wireless video delivery in the Microsystems Technology Laboratories and in the Laboratory for Computer Science, earning her Ph.D. in 2000 and her master’s degree in 1997. Heinzelman received her bachelor’s degree in electrical engineering from Cornell University in 1995.

Awards for her scholarship include the Merrill Presidential Scholar award as well as fellowships from the Eastman Kodak Company and the National Science Foundation.

Edward Peck Curtis Award for Excellence in Undergraduate Teaching

John Beck

Percussion performance and teaching are the melody of John Beck’s life, a large measure of which the master percussionist has played out in the halls of the Eastman School of Music, first as a student and later as a guide to others on their musical journeys.

Beck’s influence as a mentor and scholar resonates in the lives of his students, many of whom—including Christopher Lamb ’81, principal timpanist for the New York Philharmonic Orchestra; Duncan Patton ’81, timpanist for the Metropolitan Opera; Patricia Dash ’83, percussionist for the Chicago Symphony Orchestra; Bob Becker ’69, ’71 (MM) and Bill Cahn ’68, percussionists with the group Nexus; and jazz drummer Steve Gadd ’68—have achieved notable levels of success.

Beck ’55E, ’62E (MM) has spent the last 40 years teaching and performing all across the world. He was a member of the U.S. Marine Band from 1955 to 1959 before joining the Rochester Philharmonic and has made solo appearances with the Eastman Wind Ensemble, Syracuse Wind Ensemble, Chautauqua Band, Memphis State Band, Rochester Chamber Orchestra, and Filharomia Promorska, Poland, in addition to numerous guest conducting and percussion clinics.

Considered an authority in the field, Beck has published articles in most major percussion journals and is the author of the definitive timpani method book Concepts for Timpani, published in 2001. He also has recorded prolifically throughout his career on such major labels as CRI, Turnabout Records, Mark Records, and Heritage Records.

Always on the creative edge, Beck spearheaded the development of percussion ensembles at Eastman so that his students could have opportunities to perform and experiment with their craft. Colleagues at Eastman commend Beck, who recently retired as timpanist for the Rochester Philharmonic Orchestra after more than 40 years with the orchestra, on his ability to remain vital as a performer while always giving his utmost to his students.

“The reason John Beck is such a successful teacher,” says James Undercoffer, dean and director of the Eastman School of Music, “is that he gives his students all the fundamentals and rudiments, but also gives them their freedom. His students perform with military precision, but also with an astounding grace and lyricism.”

Doctoral Degree Candidates

Doctor of Philosophy

Andrei Alexandrov Biophysics
Sayura Aoyagi Biochemistry
David L. Aronstein Optics (October 11, 2002)
Joseph E. Atkins Brain and Cognitive Sciences
Kent Lee Bassett Averett Physics (March 7, 2003)
Miriam Barlow Biology (March 7, 2003)
Vincent Batori Biophysics (October 11, 2002)
Alina Beygelzimer Computer Science
Edward S. Bielejec Physics (March 7, 2003)
Debra Jean Boehmler Chemistry (March 7, 2003)
Mary Regina Boland English (October 11, 2002)
Seth Richard Bordenstein Biology (October 11, 2002)
Alper Buyuktosunoglu Electrical Engineering
Donna Karen Byron Computer Science (October 11, 2002)
Scott James Cameron Pharmacology
Philip Camillo Carli Musicology
Christopher P. Chambers Economics
C. Ondine Chavoya Visual and Cultural Studies (October 11, 2002)
Huang-Ming Philip Chen Material Science
Kanghua Chen Mechanical Engineering (March 7, 2003)
Ying Chen Biology (March 7, 2003)
Agnim I. Cole Electrical Engineering (October 11, 2002)
Loretta Lynn Collins Pathology
Marie Elizabeth Coppola Brain and Cognitive Sciences (March 7, 2003)
Cathleen J. M. Cox Biophysics (March 7, 2003)
Christine M. Cuppoletti Chemistry
Andrew Wade Custer Neuroscience (March 7, 2003)

Christi Marie Davis Health Services Research and Policy (March 7, 2003)
Subhranil De Physics (March 7, 2003)
Sophie Deneve Brain and Cognitive Sciences (March 7, 2003)
Matthew David Disney Chemistry (March 7, 2003)
Melissa Dominguez Computer Science
Marc John Dubin Neurobiology and Anatomy (October 11, 2002)
Tasma Duza Biomedical Engineering
Sara Eapen Statistics (October 11, 2002)
Jacalyn Eddy History (March 7, 2003)
Roman A. Eliseev Biophysics (March 7, 2003)
Darby E. English Visual and Cultural Studies (October 11, 2002)
Pekin Erhan Eren Electrical Engineering (October 11, 2002)
Christopher Kyle Eveland Computer Science (March 7, 2003)
Changyong Feng Statistics (October 11, 2002)
David Joel Fischer Optics (October 11, 2002)
Terrence Lee Fisher Jr. Microbiology and Immunology (October 11, 2002)
Judith Fonzi Education
Dawn K. Gifford Optics
Jason G. Gillmore Chemistry
Dror Goldberg Economics (October 11, 2002)
Andrew Harris Gordon Biomedical Engineering
Thomas K. Graves Pharmacology (October 11, 2002)
Christian Robert Grose Political Science
Pavan Kumar Gundepudi Business Administration
Gang Guo Political Science (October 11, 2002)
Xin Guo Chemistry (October 11, 2002)
Brandon Keith Harvey Neurobiology and Anatomy (March 7, 2003)
John E. Heebner Optics
Mary J. Henold History
Christoph Hinkelmann Business Administration (October 11, 2002)
Christopher M. Homan Computer Science
Kyung Uk Hong Toxicology (March 7, 2003)
Yueh-Chiang Hu Pathology
Shih-Min Huang Microbiology and Immunology (March 7, 2003)
Sung-Huang Huang English (October 11, 2002)
Carla Lianne Hudson Brain and Cognitive Sciences and Linguistics (October 11, 2002)
Ruskin H. Hunt, III Brain and Cognitive Sciences (October 11, 2002)
Andrea Marinia Ionescu Biophysics (March 7, 2003)
Zeshan Ismat Geophysical Sciences (October 11, 2002)
Joshua H. Johnson Optics
Christopher J. Kam Political Science (October 11, 2002)
Charles Karan Jr. Chemistry (October 11, 2002)
Daniel S. Koo Brain and Cognitive Sciences
Tanya Zoriana Kosc Optics
Laura Koumas Microbiology and Immunology (October 11, 2002)
Bradley Mark Kraft Chemistry (October 11, 2002)
Burhanettin Kurucu Economics (October 11, 2002)
Hoffman B. Moka Lantum Pharmacology (March 7, 2003)
Sang Chin Lee Microbiology and Immunology (March 7, 2003)
Thomas Keywon Lee Toxicology (October 11, 2002)
Zaibo Li Pathology (October 11, 2002)
Hu-Kuan Lin Pathology (October 11, 2002)
Bo Liu Pharmacology (October 11, 2002)
David Jeffrey Logan Neuroscience (October 11, 2002)
Yuanzhi Luo Business Administration (March 7, 2003)
Christopher T. Martin History (October 11, 2002)
James Earl McGarrah Chemistry (March 7, 2003)
Holly Anne McGregor Social-Personality Psychology
Richard Raymond Meehan Materials Science
Michael L. Melocchi Optics
Jianjun Miao Economics
Vladimir Misc Electrical Engineering
James P. Moran Microbiology and Immunology (October 11, 2002)
Toshihiko Mukoyama Economics (October 11, 2002)
Kristen M. S. O’Connell Pharmacology (March 7, 2003)
Elizabeth S. Richards O’Grady Chemistry
Tobie Hittle Olsan Nursing
Sait Kubilay Pakin Electrical Engineering (March 7, 2003)
Raphael Panfilii Physics (October 11, 2002)
Ian Alexander Peddie English (October 11, 2002)
César Enrique Pérez-González Biology (March 7, 2003)
Demetrios Podulios Physics
Daven C. Presgraves Biology (March 7, 2003)
Kelli A. Prior Microbiology and Immunology (October 11, 2002)
Jill Rosemary Quinn Nursing
Mujibur M. Rahman Biochemistry
Tamara Ann Ranalli Biochemistry (March 7, 2003)
Cyril Reade Visual and Cultural Studies
Qinghu Ren Biology (March 7, 2003)
Brian S. Rice Mechanical Engineering
Julie L. Richards Microbiology and Immunology (October 11, 2002)
Dipesh Risal Biophysics (March 7, 2003)
Jo Ellen Gill Roe Chemistry (March 7, 2003)

Mikhail Roshal Microbiology and Immunology
Brandy S. Russell Chemistry
Kenneth John Salzer English (October 11, 2002)
Joseph Felimon Sanchez, Jr. Genetics (October 11, 2002)
Stephen E. Schauer Biology (March 7, 2003)
Karl B. Scheidweiler Pathology (October 11, 2002)
Susan J. Schroeder Chemistry (March 7, 2003)
Miriam Sebego Nursing (March 7, 2003)
Tya Lynnette Seldon English (October 11, 2002)
Joseph J. Senn Pharmacology
Tzong-Jen Sheu Pathology (October 11, 2002)
Adnan Hussain Siddiqui Neuroscience
Branslav L. Slantchev Political Science (October 11, 2002)
Leigh Small Nursing
Michelle Lee Spomer Clinical Psychology
Christopher Shawn Sweeney English (March 7, 2003)
Ane Miren Tamayo Business Administration (March 7, 2003)
Lawrence S. Taylor Electrical Engineering (October 11, 2002)
Tin Htwe Thin Pathology (October 11, 2002)
Susan Parce Thompson Brain and Cognitive Sciences (March 7, 2003)
Samuel Trent Thurman Optics (March 7, 2003)
Kenneth Joseph Tomaszewski Health Services Research and Policy (October 11, 2002)
Peng-Yu Tsai Materials Science (October 11, 2002)
Ceri E. Van Slyke Genetics
Nina Verdal Chemistry (March 7, 2003)
Antai Wang Statistics (October 11, 2002)
Xiaowen Wang Microbiology and Immunology (October 11, 2002)

COMMENCEMENT 2003
Eastman School of Music

Doctoral Degree Candidates

Doctor of Musical Arts

Dennis George DeSantis
Music Composition

Kirk Howard Dougherty
Performance and Literature
(Voice)

Evon Andrew Feldman
Conducting

Thomas Joseph Folan III
Conducting (March 7, 2003)

Ju-luan (Joanne) Hsu
Performance and Literature
(Piano) (March 7, 2003)

Juyeon Kang
Performance and Literature
(Piano) (March 7, 2003)

Kunyoung Kim
Performance and Literature
(Piano)

Merilee L. Klemp
Performance and Literature
(Oboe) (March 7, 2003)

Kwan Lee
Performance and Literature
(Piano)

Christopher Richard Moore
Performance and Literature
(Trumpet) (March 7, 2003)

Ronald James Morgan
Performance and Literature
(Piano) (October 11, 2002)

Alexandra Nguyen
Piano Accompanying and
Chamber Music

Courtney Sian Orlando
Performance and Literature
(Violin)

Joanna Gruca Owen
Performance and Literature
(Violin) (March 7, 2003)

Deanna Leah Oye
Piano Accompanying and
Chamber Music

Jonathan Robert Leslie Paget
Performance and Literature
(Guitar) (March 7, 2003)

Jooyun Park
Performance and Literature
(Piano) (March 7, 2003)

Keun Jeong Park
Performance and Literature
(Harp) (March 7, 2003)

Joy Elizabeth Puckett
Piano Accompanying and
Chamber Music

Stephen Clark Shewan
Music Education

Richard J. Shuster
Performance and Literature
(Piano) (October 11, 2002)

Matthew Alan Sintchak
Performance and Literature
(Saxophone) (March 7, 2003)

Solomia Soroka
Performance and Literature
(Violin) (March 7, 2003)

Jocelyn Anne Swigger
Performance and Literature
(Piano) (October 11, 2002)

Nathan Alan Wysock
Performance and Literature
(Guitar) (October 11, 2002)

Thomas Yee
Performance and Literature
(Piano) (October 11, 2002)

Margaret Warner Graduate School
of Education and Human Development

Doctoral Degree Candidates

Doctor of Education

Natalie P. Alford

Michael S. Christman

Raymond J. Giannarino, Jr.

Eleanor Diane Rosenfield
Bachelor of Arts

Dinuk Abeyesekera Economics
Marium Ajalah Abugasea Psychology/German

Eastman School of Music

Degree Candidates • Eastman School of Music

Bachelor of Music

Benjamin K. Abbott
Applied Music (Clarinet)

Marissa Arciola
Applied Music (Double Bass)—Major; Brain and Cognitive Sciences—Minor

Minyoung Baek
Applied Music (Piano)

James Joseph Barbato
Applied Music (Voice), with High Distinction

Matthew Lynn Barnson
Music Composition

Andrew R. Bonner
Applied Music (Violin)

Melissa Bruins
Applied Music (Violin)/Music Education—Instrumental, with Distinction

Caleb Charles Burhans
Applied Music (Piano)/Music Composition

Pablo César Bustos
Applied Music (Voice)

Emily Maren Calvert
Applied Music (Oboe), with Distinction

Joshua Michael Caselli
Applied Music (Double Bass)

Justin Lee Mark Caulley
Applied Music (Violin), with High Distinction

F. Colin Chatfield
Applied Music (Double Bass)

Kan Chiu
Applied Music (Piano)

Martha Lynn Cluver
Applied Music (Viola)

Karen Burwell Copeland
Applied Music (Flute)

David L. Crowell
Jazz Studies and Contemporary Media

Lisa Michelle Dixon
Applied Music (Clarinet)/Music Education—Instrumental, with Distinction

Guesna Miranda Dohrmann
Applied Music (Clarinet), with Distinction

Adrianna Jennifer Donovan
Music Education—Instrumental

Michael Justin Dowden
Applied Music (Trombone)/Music Education—Instrumental, with High Distinction

Justin Ryan Elkins
Applied Music (Viola)

Michael Clive Fletcher
Applied Music (Double Bass)

Susan Freese
Applied Music (Horn), with Distinction

Heather M. Gardner
Applied Music (Viola)

Ryan Bernard Gardner
Applied Music (Trumpet), with Highest Distinction

Christina M. Gill
Applied Music (Voice)

Nicholas Paul Gonzalez
Applied Music (Tuba)

Alissa J. Goodkin
Applied Music (Voice), with Distinction

Anne Elise Gratz
Applied Music (Violoncello), with Distinction

David James Guidice
Jazz Studies and Contemporary Media

Kristi Marc Guigliano
Music Education—Vocal

Emily Corinne Halgrimson
Applied Music (Horn)

Nicole Kim Hanson
Applied Music (Violoncello), with Distinction

Maria Lynn Harrold
Applied Music (Horn)

Jonathan S. Herbert
Applied Music (Euphonium)/Music Education—Instrumental

Linda Music Student Life Award

James Raymond Hirschfeld
Jazz Studies and Contemporary Media, with Distinction

Guy Brooke Johnston
Applied Music (Violoncello)

Michael Lund Jorgensen
Applied Music (Violin)

Bill Kalinka
Applied Music (Clarinet), with Distinction

Caryn Elizabeth Kerstetter
Applied Music (Voice)

Phillip Neal Key
Applied Music (Oboe)

David James Kim
Applied Music (Violoncello)

Sarah Elizabeth King
Music Education—General

Emilia A. Kister
Music Education—General

Mamiko Kitamura
Jazz Studies and Contemporary Media

Carrie Lynn Klaman
Applied Music (Violin)/Music Education—Instrumental, with Distinction

Alice DeSimone Student Life Award

Grant Whitfield Knox
Applied Music (Voice)

Patrick Shea Kole
Applied Music (Violoncello)

Sara Elizabeth Krbs
Applied Music (Piano)

Maya DiAnn Krivchenia
Applied Music (Voice), with Distinction

Sae Rom Kwon
Applied Music (Violoncello)

Bok Lee
Applied Music (Piano)

Jiwoon Lee
Applied Music (Piano), with Distinction

Justin Stephen Legris
Applied Music (Voice)/Music Education—Vocal

Carmen Alicia Lemonie
Applied Music (Flute), with Distinction

Lydia Marie Ligamari
Applied Music (Violoncello)/Music Education—Instrumental

Michelle Van-Ison Lin
Applied Music (Flute)

Corrina Ann Lynch
Applied Music (Violin)

Robert Casey MacFarlane
Applied Music (Saxophone)/Music Education—Instrumental, with Distinction

Joshua Andrew Massicot
Applied Music (Piano)

Danielle McCormick
Applied Music (Voice), with High Distinction

Kevin S. McFarland
Music Composition

Sheila Judith McNally
Applied Music (Oboe), with Distinction

Mary Eileen McNamee
Applied Music (Violin), with Distinction

Brady Joseph Miller
Jazz Studies and Contemporary Media, with High Distinction

Christopher Brice Moore
Applied Music (Trumpet)

Michael Joseph Moran
Applied Music (Percussion)/Music Education—Instrumental

Irina Larissa Ruth Mueller
Applied Music (Violin), with High Distinction

Hee-Jung Nam
Applied Music (Piano), with Distinction

Jonathan Paul Narducci
Applied Music (Piano)

Yuki Lee Numata
Applied Music (Violin), with Distinction

Petre Robert Osornio
Applied Music (Saxophone)/Music Education—Instrumental

EunDo Park
Applied Music (Trumpet)

Jason Paul Peterson
Applied Music (Piano), with Distinction

Daniel Robert Pierce
Applied Music (Trombone)/Jazz Studies and Contemporary Media, with Distinction

Theodore Patrick Poor
Jazz Studies and Contemporary Media

Jessica Lynn Powell
Applied Music (Double Bass)

Ryan John Power
Applied Music (Voice)

Jillian K. Pritchard
Applied Music (Percussion)/Music Education—Instrumental

Alexander Timothy
Richard Pyper
Applied Music (Organ), with High Distinction

Lauren Elizabeth Radnofsky
Applied Music (Violoncello)

Adam Matthew Roberts
Music Composition

Rachel L. Roberts
Applied Music (Flute)

Hyunsil Roh
Applied Music (Violin), with Distinction

Edward John Rosenberg III
Jazz Studies and Contemporary Media, with Distinction

Joshua Simon Rutner
Jazz Studies and Contemporary Media

Caroline In-Kyung Ryu
Applied Music (Piano)

Joshua Adam Salsbury
Applied Music (Trombone)

Nicolas David Schneider
Applied Music (Violin)/Music Education—Instrumental—Major; English Literature—Minor

Matthew Wayne Schreibis
Music Composition

Faith E. Sherman
Applied Music (Voice)

Sara Diane Shumway
Music Education—Vocal/Music Education—Instrumental

Shawn Donald Snider
Applied Music (Violin)

Christopher Michael Streeter
Applied Music (Voice)

David Andrew Stringham
Music Education—Instrumental, with Highest Distinction

Caitlin Marie Sullivan
Applied Music (Violoncello)

Zachary Sweet
Applied Music (Violoncello)

Zuzanna Szweczyk
Applied Music (Piano), with Distinction

Kenji Takeda
Applied Music (Piano)

Wei Wei Tan
Applied Music (Violin), with Distinction

Frederick Thomas Teardo
Applied Music (Organ), with Highest Distinction

Sonja Augusta Thoms
Applied Music (Oboe), with Distinction

Vincent Paul Wallace, Jr.
Applied Music (Voice)

P. Tennison Washington
Applied Music (Piano)

Mark Andrew Wheeler
Applied Music (Percussion)

Jill Wiebe
Applied Music (Harp)

Brooke Elizabeth Williams
Applied Music (Violin)

Michael Robert Williams
Jazz Studies and Contemporary Media

Peter Thomas Wise
Applied Music (Percussion), with High Distinction

William Weston Wisnom
Applied Music (Organ)

Megan Ruth Wobus
Applied Music (Violin)/Music Education—Instrumental—Major; French—Minor

Frederick Thomas Teardo
Music Composition

Okay Emre Yilmaz
Applied Music (Guitar)

Boris Z. Zelichenok
Applied Music (Violin)

Peter Kenneth Zlotnick
Applied Music (Violin)/Music Education—Instrumental, with Distinction

COMMENCEMENT 2003
Master of Arts
Sylvia Angelique Alajai Musicology (March 7, 2003)
Jonathan David Atleson Music Theory (March 7, 2003)
Kirk Howard Dougherty Pedagogy of Music Theory (October 11, 2002)
Jason D. Federmeyer Music Composition (March 7, 2003)
Andrew James Hicks Musicology (March 7, 2003)
Victoria Peiven Kuan Music Education (October 11, 2002)
Janna R. Kysliko Musicology (March 7, 2003)
Joshua Banks Mailman Music Theory (March 7, 2003)
Jeffrey Paul Myers Music Composition (March 7, 2003)
Michelle Nguyen Music Theory (October 11, 2002)
Kirsta Brita Rodean Music Education (October 11, 2002)
Ian Thomas Sanchez Music Education (March 7, 2003)
David Leon Sommerville II Music Theory (October 11, 2002)
Anna Stephan-Bohman Music Theory (October 11, 2002)
Jocelyn Anne Swigger Pedagogy of Music Theory (October 11, 2002)
Dariusz Terefenko Pedagogy of Music Theory (March 7, 2003)
Aaron James Travers Music Composition (October 11, 2002)
Michael Allen Wolf Music Education (March 7, 2003)
Misty Ann Teal Music Education (October 11, 2002)
Sung-Eun Koh Yi Performance and Literature (Piano) (October 11, 2002)
Carrie Angela Zugelder Music Education (October 11, 2002)

Master of Music
Terumichi Aoyama Performance and Literature (Clarinet) (March 7, 2003)
Christopher Robert Beaudry Performance and Literature (Trombone) (March 7, 2003)
Kristian Bezaudenhout Performance and Literature (Piano) (March 7, 2003)

Master of Arts in Teaching

Leor Cohen
The Genesee
The Alma Mater

T. T. Swinburne, Class of 1892

1. Full man-y fair and fam-ous streams Beneath the sun there
2. No cas-tled crags a-long her way Ro-man-tic splen-dors
3. As flows the riv-er, gath-ering force, A-long her stead-fast

be, Yet more to us than an-y seems Our own dear Gen-e-see We
cast, No fa-bled or his-tor-ic lay re-calls the gold-en past, But
way, May we a-long life’s de-vi-ous course Grow strong-er day by day And

love thy banks and state-ly falls, For to our minds they bring Our
more than bat-tle-ment-ed walls or leg-end they may bear, Are
may our hearts wheree’er we roam For-ev-er loy-al be To

dear old Al-ma Ma-ter’s halls, Where sweet-est mem-ories cling.
dear old Al-ma Ma-ter’s halls and mem-ories ling-ling there.
our be-loved col-lege home Be-side the Gen-e-see.
