Bryan Gopaul  
Assistant Professor, Educational Leadership, Warner

My teaching and research focus on exploring how privilege, hierarchy, advantage, and marginalization are manifested in various higher educational contexts. Specifically, I have assessed the socialization of doctoral students in Engineering and Philosophy, governance reform and decision-making processes at universities in Kazakhstan, and the changing academic profession. My current research seeks to examine the experiences of post-doctoral researchers, links between faculty mobility and institutional leadership, and civic engagement priorities at research universities. My interest to join the Faculty Senate is rooted in my commitment to link my scholarship with institutional efforts to examine and to advocate for inclusive practices.

Nicholas Gresens  
Associate Professor, Religion and Classics, College

I have been teaching at the University of Rochester in the Department of Religion and Classics since 2009, after receiving my PhD in Classical Studies from Indiana University. My primary research interests are in ancient Greek and Roman mythology and folklore, although I have recently developed an interest in epigraphy and the use of technology to enhance our ability to read graffiti and inscriptions. My primary focus at the university, as an Associate Professor of Teaching (formerly a Senior Lecturer), is on teaching ancient Greek and Latin as well as an assortment of ancient Greek and Roman culture courses, and I am proud to have been twice named SA Humanities Professor of the Year. Outside the classroom, I dedicate myself to improving the undergraduate experience, serving on the Board of Academic Honesty, working with CETL and the Center for Education Abroad, and offering extracurricular events for our Religion and Classics students.

Harry Groenevelt  
Associate Professor, Operations Management, Simon
Valentin Guset  
Assistant Professor, Clinical Medicine, SMD  

Dr. Guset is a board certified internist and a full-time Academic Hospitalist at Highland Hospital. Dr. Guset has a penchant for patient and public advocacy. In his prior role at Rochester Regional Health System he was as an elected member of the Rochester General Hospitalist Group Governance Board and served as a co-chair of Patient Experience Committee. Most recently, Dr. Guset was part of the Opioid Taskforce and Medication Reconciliation Project at Highland Hospital. He is an active member of the American College of Physicians (ACP) since residency and serves at present in the New York ACP Chapter Quality & Patient Safety Committee. Dr. Guset and his spouse have Eastern European roots and he sees the opportunity to represent Highland Hospital and the Department of Medicine in the Faculty Senate as a perfect platform to further his ongoing commitments to patients, education and community service.

C. Douglas Haessig  
Associate Professor, Mathematics, College  

I joined the Math Department faculty in 2010. My research is in number theory, specifically the interplay between arithmetic, geometry, and analysis. In addition to research and teaching, I am active in outreach and supervising undergraduate research. I have regularly attended the Faculty Senate meetings over the past three years. My motivation to join the Faculty Senate at this time stems from the need for faculty engagement related to policy decisions surrounding recent events at the University. I hope to work hard at making the University a place that everyone is proud to be a part of.

Kevin McFarland
Professor, Physics, College

I’ve served as a past chair of the Faculty Senate, and am currently chair of the University Committee on Tenure and Privileges. Shared governance, the process by which faculty provide advice and consent on some administrative decisions, takes on particular importance because we work at an institution where we do not collectively bargain for our workplace rights as faculty. My work in the Senate and UCTP has focused on strengthening shared governance, and I am proud of my role in the Senate’s recent successes: instituting a new faculty grievance policy that provides for peer input; negotiating a clear faculty role on searches for and reviews of senior administrators; adding faculty representatives to Board of Trustees committees; and strengthening the faculty voice in setting regulations that govern faculty promotions. I look forward to continuing this work with the Senate.
