

2023-24 Per-Unit Tuition Costs for the Military Student Tuition Assistance Program

On March 15, 2011, the Department of Defense (DoD) issued Instruction Number 1322.25, incorporating Change 3 (Instruction), effective July 7, 2014. The Instruction sets eligibility criteria for participation in the DoD Tuition Assistance program by educational institutions and requires them to enter into a Memorandum of Understanding (MOU). The required MOU was signed by President Mangelsdorf in 2019. One of the requirements of the MOU is to publish a system wide per-unit tuition schedule for the purposes of calculating tuition costs for military students.

The Department of Defense in their Memorandum of Understanding requires schools to publish a per credit hour tuition cost for all full-time colleges and programs. This rate is based on the following calculation: per year tuition cost X number of years to complete program/ total number of semester hours to complete program = cost per hour.

Using this calculation, the per credit hour tuition costs for our full time flat rate tuition college and programs are listed below. These rates are calculated at a full time rate only. **Students who pay tuition at a flat rate may pay more or less than these costs in a given semester depending on their semester load.** For part time charges, please see the [Tuition & Fees](#) section of the Office of the Bursar website. **Please note that these rates are for the 2023-24 school year only, and are subject to change in subsequent school years.**

Questions concerning eligibility and the provisions of the MOU as well as per-unit tuition rate calculations may be referred to Sam Veeder, University of Rochester School Certifying Official at samantha.veeder@rochester.edu.
