In partnership with AmeriCorps, the University of Rochester Center for Community Engagement is pleased to announce the availability of awards for the 2023 Rochester Urban Fellows program. I invite your organization to apply to host an Urban Fellow.

Rochester Urban Fellows is a 10-week summer program that provides local undergraduate students with opportunities to develop professional skills through a summer fellowship building programmatic capacity for a local organization; increase their understanding of urban issues and poverty; and develop social and emotional ties to Rochester, all in an effort to keep them in the area after graduation. Urban Fellows serve with their partner agency ~32 hours per week. On Wednesdays, Fellows gather at the University of Rochester for seminars on urban issues and community-engaged learning activities.

The 2023 summer program will tentatively run from May 22 through July 28. Priority will be given to projects that focus on summer learning loss, summer food programs, and substance abuse prevention.

We recognize that this assignment description may change and consider it a “living document.” We request that if changes need to be made, that we are notified as soon as possible.
