- “We’re better than THAT!” - Anti-Racism Campaign Update (Assistant Dean Norman Burnett)

“We’re better than THAT!” (WBTT) launched its second annual program this past Tuesday, March 21 in recognition of the United Nation’s International Day for the Elimination of Racial Discrimination. Check out the #EliminateRacism #WBTT campaign on social media to see members of our University Community wearing WBTT T-shirts in solidarity. There were about 25 students who attended the Student Panel and Training on Race, facilitated by Dean Beth Olivares and Sasha Eloi.

The attached brochure (page 7) was handed out during the tabling events held at both the Eastman School of Music and the River Campus to promote the work of the WBTT Campaign and also to educate and bring awareness of the Educational Programming and Anti-Racism Training opportunities. Moving forward WBTT hopes to conduct a mandatory in-person training in collaboration with Student Employment. There was a proposal submitted to Jonathan Burdick, Vice Provost for Enrollment Initiatives and Dean of College Admission for review.

There are different ways for members of our community to get involved with the campaign and committee. If you would like to join the WBTT Committee and get involved, please contact Sarah Van Munster at sarah.vanmunster@rochester.edu.

- Bias-Related Incident Update (Jessica Guzman-Rea)

Jessica Guzman-Rea shared the 2016 Fall Semester Summary of the Bias-Related Incident Reports. Overall, there were a total of 93 Bias-Related Incident Reports submitted. Multiple reports were submitted for the same incident resulting in 32 total Bias-Related Incidents. Based on the group discussion, there were suggestions regarding how the data should be documented. Revisions will be made prior to distributing the summary report to students, staff, and faculty.
• **Supporting Students Affected by Recent Immigration Actions and Political Climate** (Molly Jolliff)

Email update from Molly Jolliff, Director, International Student Engagement & Associate Director, Center for Advising Services - In the next Read This (arrives Sunday, March 26) will have information for students affected by recent immigration actions and political climate. It will link to a form to collect the students' information so that we can best support/advise them for the summer. It is confidential, it is also not a guarantee of support but it is a great start to getting connected to help.

• **Join CIEE in the Effort to Save ECA Funding** (Heidi Kozireski)

Heidi Kozireski shared information about the “Dear Colleague” Letter initiative from the Council on International Educational Exchange and described the real world impact these cuts would have to University of Rochester students. Specifically, first generation and low income students.

The Trump administration’s FY2018 budget, which was released on March 16, calls for an unprecedented cut of 28 percent to the Department of State. Language in this budget directs a dramatic cut to the Bureau of Educational and Cultural Affairs (ECA), which funds and administers a broad cross section of study abroad programs for Americans and international exchange programs that enable international students and scholars to come to the United States.

If enacted into law by Congress, these cuts would result in the following:
- significant reductions to the Fulbright Program;
- the elimination of the Gilman Program, which supports Pell-eligible college students to study abroad;
- the elimination of Critical Language Scholarships, which support Americans to learn critical languages overseas;
- the elimination of the EducationUSA program, which promotes the American higher education system to foreign students through over 300 centers around the world;
- the elimination of countless other programs that our higher education community values so greatly.
- In addition, these cuts would significantly harm our nation's public diplomacy efforts and, ultimately, our national security and economy.

We need to support our friend, Congressman Hank Johnson, who is collecting signatures on a letter to the House State, Foreign Operations Appropriations Subcommittees in support of exchange program funding. This letter calls for the highest possible funding level for exchange programs in FY2018. **The deadline for members of Congress to join the “Dear Colleague” letter is Wednesday, March 22.**

The Alliance for International Exchange has organized a letter-writing campaign that makes it very easy for you to write your representative. [Access a prewritten letter](http://cqrcengage.com/alliance-exchange/app/write-a-letter?1&engagementId=315073) that you can customize if you would like. It only takes a minute or two to send this letter to your representative in Congress. Adding your voice to this effort will truly make a difference. Thank you for taking action today.

Prisons are not ‘broken’ nor are they rehabilitative. Prisons exist to punish and control. They were never built to end systemic racism, sexism, transphobia, homophobia, classism, ableism, or xenophobia. In fact, they exist to reinforce and reproduce these systems of oppression that perpetuate the violence we experience.

Through Project NIA and other organizations, Mariame Kaba has been creating and lifting up solutions to harm that transform it as well as the people affected by the harm. We are part of a movement that is interested in building a world focused on accountability, healing and transformation for all of us. We believe that abolishing the prison industrial complex (PIC) by relying on the practice of transformative justice offers the best opportunity for us to create the world in which we want to live: one without imprisonment, oppressive policing, and state surveillance.

This talk will highlight the ways in which people are organizing to end mass incarceration and mass criminalization and to prevent and respond to violence outside of the punishment paradigm. It will underscore responses that decrease mass criminalization and incarceration.

Mariame Kaba is an organizer, educator and curator. Her work focuses on ending violence, dismantling the prison industrial complex, transformative justice and supporting youth leadership development. She is the author of many articles on criminal justice, abolition, and ending the mass incarceration of minorities in our country. She is a community organizer, an activist and a speaker much in demand, dedicated to working with youth and empowering them for leadership.

PURPOSE
Racism and hate speech have no place at the University of Rochester. We aspire to be a community whose members are equally valued and respected.

"We’re Better Than THAT" places the power and responsibility to shape our community in each of our hands. By learning ways to react when we offend others or are offended by them, or when we are a witness to an ugly comment or conversation, we can acknowledge and act on this shared responsibility.

Throughout this semester and in the future, the "We’re Better Than THAT" campaign will educate students, faculty, and staff on ways to approach difficult conversations and divisive topics and to stop hate speech and racism in our community.
