Eastman Medal

The Eastman Medal recognizes individuals who, through their outstanding achievement and dedicated service, embody the high ideals for which the University stands.

Doctor of Science

James Wyant '67 (MS), '69 (PhD)

James Wyant is a professor emeritus and the founding dean of the James C. Wyant College of Optical Sciences at the University of Arizona. The college, where he has been a faculty member since 1974, was renamed in his honor in 2019.

A leader in the field of optical metrology, Wyant is a founder of two companies that produce optical measuring equipment: the WYKO Corporation, which he served as president and board chair from 1984 to 1997, and the 4D Technology Corporation, which he served as board chair from 2002 to 2018.

Wyant has received several awards for his technical work and entrepreneurialism, including the OSA's Joseph Fraunhofer Award, SPIE's Gold Medal as well as its Visionary Award, the State of Arizona's Innovator of the Year Award, the University of Arizona's Technology Innovation Award, and the Distinguished Alumnus Award from Rochester's Hajim School.

Wyant has contributed to the life of the University in many ways over several decades. He taught in the Institute of Optics Summer School from 1983 to 2015; served on the Board of Trustees from 2012 to 2017, after which he became a Life Trustee; and honored his former optics professor by establishing the M. Parker Givens Professorship in Optics.

He is a member of the National Academy of Engineering and of the National Academy of Inventors, a fellow and former president of the Optical Society of America, and a member and former president of the International Society for Optics and Photonics (SPIE).

Wyant received a bachelor's degree in physics from Case Western Reserve University before earning master's and doctoral degrees in optics from Rochester.

George Eastman Medal

John "Dutch" Summers

John "Dutch" Summers is an entrepreneur and the CEO of Graywood Companies, a Rochester-based global private equity firm with more than 50 business units in 13 states and 9 countries.

Graywood Companies began as a small tool and die business started by

Summers's father and grew to its current scope under Summers's leadership. Summers continues to be actively involved in Graywood Companies while also contributing financially and in-kind to a wide variety of community and philanthropic projects.

Over the past few years much of his philanthropy has been focused on education. His interest in improving the educational outcomes of our schools and colleges and universities is one of his highest priorities.

In 2017, he and his wife, business leader and University Trustee Sandy Parker, were the recipients of the Monroe Community College Foundation's Salute to Excellence Award for commitment to public higher education and the community. The following year, Rochester Institute of Technology's Saunders School of Business presented Summers with the Herbert W. Vanden Brul Entrepreneurial Award, an award given annually to an individual who has developed a business that improved the Rochester economy or whose innovative management skills have changed the course of an existing business.

Summers has served on the board of directors of the Greater Rochester Chamber of Commerce and was inducted into the Rochester Business Hall of Fame in 2010.

Charles Force Hutchison and Marjorie Smith Hutchison Medal

Alice Holloway Young '57 (MEd), '69W (EdD)

Alice Holloway Young is a groundbreaking educator, community leader, and children's advocate.

Born in 1923 in North Carolina, Young overcame the challenges of growing up in the Jim Crow South before starting her career with the Rochester City School District (RCSD)

in 1952. She was among the first African American teachers in the district and the first African American to hold the titles of reading specialist, vice principal, and principal for RCSD. Additionally, she wrote and supervised the district's first integration programs, including the Urban-Suburban program, the oldest voluntary desegregation program in the country. She retired from RCSD in 1985 as supervising director of elementary education.

Young also served as a founding trustee of Monroe Community College in 1961 and chaired the college's Board of Trustees from 1978 to 1998.

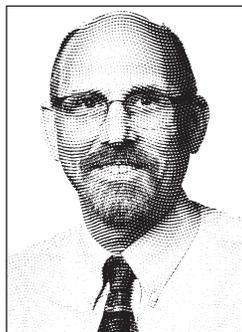

In March, Young was presented with the 2021 Liberty Medal—the highest honor awarded by the New York State Senate. The award, given for lifetime achievement and exceptional community acts, recognized Young's impact on education in Rochester and Monroe County spanning more than 50 years.

She has received numerous other awards and recognitions, including a 2019 Icon Success Leadership Award from the *Rochester Business Journal*; a 2018 Woman of Distinction honor from the New York State Assembly; the Anne M. Bushnell Memorial Award for Special Achievement, the highest honor conferred by the State University of New York Association of the Boards of Trustees of Community Colleges; and the Urban League of Rochester's Distinguished Community Service Award, among several other accolades.

Young has called her life's mission "breaking down barriers so that others may shine."

William H. Riker University Award for Excellence in Graduate Teaching

Brian Brent

Brian Brent is the Earl B. Taylor Professor at the University of Rochester's Warner School of Education and Human Development. Beginning his career as a certified public accountant, Brent developed an interest in school finance. He entered graduate school in education at Cornell

University, earning a master's degree and a PhD before joining the faculty of the Warner School.

During his Warner tenure, Brent has served as the senior associate dean for graduate studies and as the acting dean. He currently serves as Warner's faculty ombudsperson for the University Ombuds Office and the Ombuds Affiliate Network.

As a faculty member in the Educational Leadership Program, Brent teaches courses in administrative decision making and fiscal issues in schools and universities. Among his priorities in these courses is providing students with the methodological skills needed to conduct thoughtful decision analyses to improve organizational policies and practices.

Brent's research interests include the equity of district- and school-level human and capital resource allocation policies and practices, equity in the ability of districts to raise local revenues, and the cost-effective use of education dollars. He has published on these topics in many forums and served on many editorial boards.

Brent has received several awards for his scholarly work and teaching, including the University's Curtis Award for Excellence in Teaching and the Jean Flanagan Award from the American Education Finance Association. He has served on the board of the American Education Finance Association and is currently an advisory board member for the National Education Finance Academy. He has also served numerous school districts and educational institutions as a consultant on financing.

Charles Force Hutchison and Marjorie Smith Hutchison Medal

The Hutchison Medal is the highest honor given to an alumnus, recognizing outstanding achievements and service to community, state, and nation.

William H. Riker University Award for Excellence in Graduate Teaching

The award recognizes a faculty member who has excelled in graduate instruction, particularly in the University's doctoral programs.

Edward Peck Curtis Award for Excellence in Undergraduate Teaching

The teaching prize is awarded to a faculty member who has a proven record of classroom excellence and who shows a willingness to mentor other educators.

Edward Peck Curtis Award for Excellence in Undergraduate Teaching

Reinhild Steingröver

Reinhild Steingröver is a professor of German at the Eastman School of Music and an affiliate professor of film studies in the Program of Film and Media Studies in the School of Arts & Sciences.

Steingröver's research is focused on marginalized voices in contemporary

German film and literature. She is the author of *Last Features: East German Cinema's Lost Generation* (Camden House); a monograph on the Austrian novelist, playwright, and poet Thomas Bernhard (Peter Lang); and numerous essays. She is a coeditor of *After the Avant-garde: Engagements with Contemporary German and Austrian Experimental Film* (Camden House) and "Not so Plain as Black and White": *Afro-German History and Culture, 1890–2000* (University of Rochester).

Steingröver has won grants and awards from the German Academic Exchange Service, the Deutsche Film-Aktiengesellschaft (DEFA) Foundation, the Suhrkamp Foundation, and the Eastman School, which awarded her the Eisenhart Award for Excellence in Teaching. She was also awarded a Bridging Fellowship from the University to spend a semester at the George Eastman Museum's L. Jeffrey Selznick School of Film Preservation.

Steingröver has curated live-to-picture programs for the George Eastman Museum, Rochester Institute of Technology, and the Cinematheque Berlin. In 2009, she was cocurator for the film festival in Los Angeles titled *Wende Flicks: Last Films from East Germany*.

Most recently, Steingröver curated the live-to-picture program *Sound Utopias*, a commemoration of the 100th anniversary of the Bauhaus art movement, performed by the German National Jazz Youth Orchestra (BuJazzO). Together with BuJazzO, the Filmmuseum Frankfurt, and composer Jeff Beal '85E, she is preparing *Sound Utopia II* to premiere later this year.

Steingröver earned her PhD from the University at Buffalo.

Edward Peck Curtis Award for Excellence in Undergraduate Teaching

Stewart Weaver

Stewart Weaver is a professor of history whose teaching encompasses a wide range of subjects, including global exploration, natural history, the History of India, British History, and the history of the First World War.

Weaver's first two books reflected his early career interest in the history of

labor and the working classes in Great Britain during the Industrial Revolution. His subsequent turn to the history of exploration and the environment began with his prize-winning book, *Fallen Giants: A History of Himalayan Mountaineering from the Age of Empire to the Age of Extremes* (Yale University Press, 2008), coauthored with Maurice Isserman '79 (PhD) and *Exploration: A Very Short Introduction* (Oxford University Press, 2016). He is currently at work on the history of magnetic science and polar exploration in the age of sail.

Most recently, Weaver has also been engaged in "Climate Witness: Voices from Ladakh," a community-engaged project to help preserve the culture and history of a mountain region in northern India under immediate threat from the forces of climate change. In 2019, he was named an Andrew Carnegie Fellow and just this year the "Climate Witness" project won the Public Outreach Award of the American Society for Environmental History.

Weaver earned his bachelor's degree in history and English from Duke University in 1979 and his doctoral degree in history from Stanford University in 1985. He has held fellowships from the American Council of Learned Societies, the Carnegie Corporation of New York, and the Center for Advanced Study in the Behavioral Sciences at Stanford University.

G. Graydon Curtis '58 and Jane W. Curtis Award for Nontenured Faculty Teaching Excellence

Ellen Matson

Ellen Matson is the Wilmot Assistant Professor of Chemistry. Her research focuses on the synthesis and characterization of multielemental metal oxide assemblies for applications in energy conversion and energy storage. Projects in the Matson Lab range from modeling the surface chemistry of

metal oxides relevant to the conversion of chemical pollutants into chemical fuels to the development of redox active charge carriers for novel flow battery technologies relevant to grid-scale energy storage.

Currently her work is supported by the National Science Foundation, the Department of Energy, Research Corporation for Science Advancement, and the Alfred P. Sloan Foundation.

Since she joined the University in 2015, Matson has taught a range of undergraduate and graduate courses relevant to general and inorganic chemistry. She has also collaborated with the College's Center for Community Engagement in the development of a course focused on community engagement and science outreach.

She has won numerous awards for her teaching and scholarship, including the Woodrow Wilson National Fellowship Foundation's Course Hero-WW Excellence in Teaching Fellowship; the Research Corporation for Science Advancement's Cottrell Scholar Award; and, most recently, the Camille and Henry Dreyfus Foundation's Camille Dreyfus Teacher-Scholar Award.

Matson graduated from Boston University with degrees in chemistry and science education in 2009 before completing her PhD in chemistry at Purdue University in 2013. Before joining the Rochester faculty, Matson was a postdoctoral researcher at the University of Illinois at Urbana-Champaign.

G. Graydon Curtis '58 and Jane W. Curtis Award for Nontenured Faculty Teaching Excellence

Tricia Shalka

Tricia Shalka is an assistant professor in the Warner School of Education and Human Development's higher education program.

Her primary research investigates the impacts of traumatic experience on college students, particularly in terms of developmental outcomes. She also maintains a

secondary research interest in the internationalization of higher education with a particular emphasis on the experiences of international students in American colleges and universities.

Shalka has published in several major journals, including the *Review of Higher Education*, the *Journal of College Student Development*, and the *International Journal of Qualitative Studies in Education*. Her work has also appeared in several practitioner-focused publications and book chapters.

Shalka's scholarship is actively informed by her previous experiences in higher education administration. She has worked in residential life, fraternity and sorority life, student affairs assessment, and student and young alumni programs. She currently serves as an associate editor for the *Journal of Trauma Studies in Education* and is on the editorial board of the *Journal of College Student Development*.

She has received several awards, including the American College Personnel Association's (College Student Educators International) Emerging Scholars Award and the Association of College Unions International's Chester A. Berry Scholar Award.

Shalka received her doctorate in higher education and student affairs from the Ohio State University, her master's degree in college student personnel from the University of Maryland, and her bachelor's degree in English from Dartmouth College.

G. Graydon Curtis '58 and Jane W. Curtis Award for Nontenured Faculty Teaching Excellence

The award is for a nontenured faculty member and is designed to encourage both interest and excellence in instruction at the undergraduate and graduate levels.
