You will be responsible for any cost difference between the actual cost of the prescription and the MVP negotiated rate for that prescription, minus your applicable copay if you use an out-of-network pharmacy.

Coverage Gap

Once your total drug costs (paid by both you and MVP Health Plan, Inc.) reach $3,820, you will pay 37% for generic drugs, $0 for Tier 1 drugs, and 25% of the negotiated price (plus the dispensing fee and vaccine administration fee, if any) for Medicare-contracted brands until the Catastrophic Coverage level is reached.

Catastrophic Coverage

When your out-of-pocket drug costs reach $5,100, your cost for covered prescriptions is reduced to $3.40 for generics, $8.50 for brand named drugs or 5% of the cost of the prescription, whichever is greater.
Exclusions (Types of drugs we do not cover)

Medicare and MVP do not pay for the following drugs:

- Drugs that are not CMS approved Part D drugs
- Drugs purchased outside of the United States and its territories
- Drug uses not approved by the Food and Drug Administration (Off-label use)
- Experimental or investigational drug(s) or device(s)
- Over the counter (OTC) drugs
- Fertility drugs
- Cough and cold drugs
- Cosmetic or hair growth drugs
- Erectile Dysfunction drugs
- Weight loss drugs
- Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations

Coverage will end if your contract is terminated, the premium is not paid for this Rider, you leave the Group through which this Rider is issued, or the Group through which this Rider is issued discontinues purchasing this Rider.
