

Flexible Spending Account Election of Reimbursement & Compensation Reduction Agreement

By electing a Flexible Spending Account (including a Health Care FSA, Dependent Care FSA, and Limited Purpose FSA), an employee agrees that their cash compensation will be reduced by the amount set forth in the FSA section of the employee's elected enrollment. This contribution will be pro-rated for each pay period of 2023 (or during such portion of the year that remains after the date of this agreement).

Up to \$570 of Health Care or Limited Purpose FSA account balances from 2022 will be carried over to 2023 for use on eligible 2023 expenses. **To be eligible for the Health Care or Limited Purpose FSA rollover, an employee must elect a Health Care or Limited Purpose account during Open Enrollment for 2023 and maintain an active account.** If an employee does not elect a Health Care or Limited Purpose FSA during Open Enrollment for 2023 and funds remaining in an existing Health Care or Limited Purpose account as of 12/31/2022, will be forfeited.

Using my FSA

There are a few options for using the savings in your FSA towards qualified medical expenses.

Automatic reimbursements

If you're enrolled in a University Health Care Plan, you have the option to set up your Health Care or Limited Purpose FSA so that it processes reimbursements automatically when you incur a qualified expense. Set this up using your online account with [Lifetime Benefit Solutions](#).

Manual reimbursements

If you did not enroll in health coverage through the University or you decide not to use the automatic reimbursement feature, you must submit a claim for each qualified expense that you would like to receive reimbursement for. You may either:

1. Use your [Lifetime Benefit Solutions](#) online account to submit claims electronically; OR
2. Use a [paper form](#) to submit claims.

Direct deposit

Use your online account or a [paper form](#) to set up direct deposit of reimbursements into your bank account with your vendor.
