University Dental Plans	Monthly Dental Rates	
	Single	Family
Traditional Dental Plan	\$33.70	\$64.85
Medallion Dental Plan	\$43.88	\$84.45

To calculate your total monthly rate, divide the University's annual contribution amount by twelve months and then subtract that amount from the total monthly health plan premium.

For example: Your annual contribution is \$120.
Your monthly UR plan premium is \$100.

$\$120 \text{ annual contribution} / 12 \text{ months} = \$10 \text{ a month contribution}$
 $\$100 \text{ monthly premium} - \$10 \text{ monthly contribution} = \90 monthly
