Subject: RAMC Meeting Follow-Up & IORA Resources

Greetings RAMC:

Thank you for attending the IORA RAMC today. We wanted to provide a quick follow-up to ensure you have the information you need to prepare for the IORA go-live on January 11! Please be sure to share this information with your department. We will continue to share information via ORPA-L, our Research List Serv, *Research Connections*, and *@Rochester*.

IORA Resources

- Visit the IORA RAMC page for RAMC presentations (including today's) and communications
- Review the most frequently asked Questions and Answers. Please send an email to the IORA team if you have additional questions.
- Check the IORA Latest News page for regular updates
- Everything you need to know about training can be found on the IORA Training page. Reminder: Everyone who will be *creating* funding proposals in IORA MUST complete the MyPath training (30 minutes).

Status of Go-Live & Access to IORA at Go-Live

We will keep you updated on our go-live status over the next several weeks and let you know of any changes. Once IORA is live, we'll share the production link and post it on the IORA and ORPA sites.

Note: Duo two-factor authentication is required for remote access to IORA. If you don't already have Duo set up, you may want to do so proactively. Information to enroll in Duo can be found here.

As always, thank you for your continued support and engagement. We wish you all safe and healthy holidays and look forward to working with you again in 2021!

IORA Team
