

# SECURITY

## TIP OF THE WEEK

### Data Classification

### Legally Restricted Data

Legally Restricted data is data that needs to be protected by law. Some examples of Legally Restricted Data include:

- Protected Health Information (PHI)
- Social Security Numbers (SSN)
- Personally Identifying Information (PII)
- Credit/debit card numbers
- Bank account numbers

This information should be handled very carefully!

*Do you have ideas that should be shared as security tips of the week?  
If so, please send them to [UnivIT\\_SP@ur.rochester.edu](mailto:UnivIT_SP@ur.rochester.edu)*
