## Survey settings

Show questions on single page

Survey questions show on a single page rather than individual pages.

Allow changing answers

Allow participants to undo their response and respond again.

Limit responses per person

Each activity has a limit on the number of responses it can receive. Letting people respond more than once may trigger this limit sooner.

Responses per person

Change the number of times a participant may respond to this activity.

Anonymous participation

Allow participants to respond without their identities being revealed, even if they are registered with your account. You will not be able to correlate anonymous responses from the same participant with any other responses from the same participant. Anonymous activities are also excluded from certain reports.

Once an activity is made anonymous, the change cannot be undone.

Restrict participants

Restrict this activity to only participants who are registered with you. Participants must log in or sign up for a Poll Everywhere participant account.

# Share the Survey
