**NEW ASSIGNMENT:** Graduating medical student Zachary Lill (right) picks up the envelope containing his residency assignment during this spring's Match Day at the School of Medicine and Dentistry. Lill, who will undertake a residency in internal medicine at the University of Utah's Affiliated Hospitals in Salt Lake City, was one of nearly 100 medical students and their families who filled the Class of '62 Auditorium for the annual event in which students find out where they will complete the next phase of their medical education.
