

## PUBLIC ART

### 'Fine Art of Folding Air'

**BALLOON BY BALLOON:** Artist Larry Moss '92, '97W (MS) is engulfed in his own five-story, 50-foot sculpture made from more than 40,000 compostable balloons. Working with his wife and artistic partner, Kelly Cheatle, Moss oversaw the installation of the sculpture, entitled *Journey on the Genesee*, in the Sibley Building atrium in downtown Rochester, where it was on display to the public this winter. The exhibit closed with a giant "popping party." Moss calls his balloon art "airigami"—"the fine art of folding air." The Office of Alumni Relations invited alumni, parents, and friends to take a sneak peek at the exhibit during a special session with Moss. The alumni guests learned how to make balloon dogs, which made their way into the final exhibition as blades of grass. **PHOTOGRAPH BY ADAM FENSTER**
