LIFETIMES

Teacher, Scholar, and Academic Leader: Hugo Sonnenschein '61

One of the most prominent economic theorists of his generation, Hugo Sonnenschein '61 is equally at home crunching mathematical models, leading a classroom discussion, and guiding the nation's leading universities. A former president of the University of Chicago and provost at Princeton University, he is a member of the National Academy of Sciences and the American Philosophical Society. A Rochester trustee, he was awarded an honorary degree from the University this fall in recognition of his achievements as an academic leader, scholar, and teacher.

My childhood

I was surrounded by love and I received considerable attention. But I have no recollection of my mother, who died when I was very young. I was raised by my aunt and surrounded with in my early years and throughout my life.

My Rochester days

Elizabeth Gunn Sonnenschein '61, '62N and I met in our freshman year. I was 16. Beth given my math background. Bingo! I found a paper on "social choice" and the work of Kenneth Arrow. It was another "love at first sight." "Life Partner and Scholarly Mission": I owe so much to Rochester.

My scholarship and teaching

Graduate school was a breeze. Rochester had prepared me very well. I finished my PhD at Purdue at age 23 and was appointed assistant professor at the University of Several have held important positions in government and in the private sector.

My time as president

I served at the University of Chicago during a time of change. I felt that it was essential to elevate the place of undergraduate students at the university. We put substantial resources into student life. I called on the faculty to reexamine our core curriculum and this generated controversy within the university and in the larger society. Chicago

her family in a modest home in Brooklyn. At age nine I moved to boarding school, and I completed high school at Oakwood Friends. My fellow students and teachers were good people and I learned a lot.

Neither my father nor my aunt attended college. Yet they cared about what I would become and they valued education.

I was a happy child, and I'm grateful for the love, attention, and values that I was maintains that I looked 12. However, she eventually took me seriously and we were married one year after graduation. Rochester economics, led by Lionel McKenzie and with the great Nobel laureate to-be Bob Fogel, was in the vanguard of places that anticipated the extent to which mathematics and statistics would transform their discipline. A young economics professor encouraged me to search for economics papers that I might find interesting,

Minnesota. I was promoted to full professor at age 27. I work with mathematical models of social science phenomena. A theorem that bears my name characterizes the mathematical structure of multimarket demand and supply functions. My proudest achievements include the extraordinary success of my students, some of whom have gone on to teach at Harvard. Berkelev. Stanford, Princeton, Chicago, Yale, and other outstanding universities worldwide.

continues to be known for its rigorous curriculum, and I believe that our revised core has helped us to attract serious young people who thrive at Chicago. The size of the College increased and we simultaneously became substantially more selective. We tripled the size of our endowment, which protects the future of Chicago. A primary purpose of academic leadership is to guide a university to appreciate its strengths, to examine what it can do better,

Bingo! I found a paper on "social choice"... It was another "love at first sight." "Life Partner and Scholarly Mission": I owe so much to Rochester.

and to help it to serve society. We are expected to lead the cheers, but we must also hold up a mirror. Great universities need to be challenged. I am immensely proud of the quality of faculty and students who came to Chicago during my tenure as president. Two were subsequently awarded the Nobel Prize, and a third, admittedly a halftime appointment in our law school, went on to become President Barack Obama.

My service as a trustee

I have spent considerable time with the trustees of Chicago, Princeton, and Rochester. These universities have a unique ability to make this a better world. Especially, if one values democracy and appreciates the importance of ideas and a well-educated citizenry. Rochester trustees have been generous with their contribution of resources. But more important has been their wisdom, their different perspectives, and their critical understanding of the discovery and learning that goes on at Rochester. The trustees work in support of an outstanding faculty and superb academic leadership. It has been an honor to serve with such a dedicated and talented group.

My life today

I am in my Chicago office most every day. Beth is a retired cancer epidemiologist. We serve on boards, with a tilt toward advanced learning, child welfare, and community service. Our grandchildren are at universities in D.C., England, New York, and Chicago. They will make the world a better place. We stalk them! We remain in contact with Rochester classmates, and we enjoy theater, biking, and music. Beth belongs to a recorder group. It is a long way from Brooklyn. Some of what has been most formative began at Rochester. Meliora! ®

The first meeting of a newly constituted National Alumni Board took place during Meliora Weekend. Designed to provide a strategic perspective on Rochester's alumni initiatives, the board is chaired by **Carol Karp** '74, a University trustee whose daughter, Sarah, is a 2011 graduate. The vice chairs are **Jane Zimelis Cohen** '67 and **Drew Mittelman** '68. Mittelman's daughter, Dana, is a 2005 graduate.

With an eventual membership of about 30 people, the board complements the work of other initiatives, including the Diversity Advisory Council, class programs, the regional network leadership cabinets, and school alumni councils.

The current members of the board are (back row, left to right) **Kayleigh Stampfler** '08, **Noah Pizmony-Levy Drezner** '00, **John LaBoda** '02, **Jeffrey Stone** '87, '91M (MD), **Paul Lanzone** '03, assistant vice president for alumni relations, **Christine Branche** '83, **Nathan Novosel** '12, and **Jordan Smith** '18, the 2017-18 president of the Students' Association; (front row) Cohen, Karp, and Mittelman.

Scholarship that included a work project under the guidance of my Eastman advisor, Alfred Mann. I was fortunate to conduct the Eastman Sing in the early years, also. I have such happy memories of my time at Eastman. In June 2018 I will retire after 33 years as the director of choral activities at Sacramento State School of Music, where I initiated the graduate degree program in conducting. I will continue my post as the music director for Sacramento's Schola Cantorum and Sacred Heart Church and as music director for the Sacramento Choral Society and Orchestra. The photo is of me conducting that ensemble with organist Ryan Enright '12 (DMA)."

1989 Christine Milioto Capani writes, "I'm thrilled to announce that my son, Jonah Capani, will be continuing the Eastman legacy."
Jonah began this fall as an applied music and voice (baritone) major and also plans to study audio and music engineering on the River Campus.... Paulina Zamora (MM) has released two CDs on the Delos Music label, Brahms: The Three Piano Trios and Claude Debussy: Douze Études.

2012 Yi-Yang Chen performed at Carnegie Hall in New York City in October. He sends a photo and this update: "It was a harvest year for me in 2017. Not only have I been selected to be the assistant professor of piano and theory at East Tennessee State University, I also captured three first prizes total-

ing \$21,000: Washington (D.C.) International Competition, Waring (California) International Piano Competition, and Five Town Music Competition (New York). As a 2017 grant recipient from Mu Phi Epsilon Foundation, I spent three weeks in Europe playing concerts and doing research. I want to give all the credit to Eastman, especially to my teacher Douglas Humpherys, who inspired me as a musician and as a better person. And I am so glad that I made the decision to return to my alma mater for my DMA. I take pride in this institute, and I am thrilled for my new career in both performing and teaching and to share what I learned at Eastman with my students, audiences, and the community." . . . Ryan Enright (DMA) (see '85). . . . Hongsup Lee writes, "It is a tremendous honor to share some great news with all the Eastman community. As an alumnus looking back, the precious time while I was studying at Eastman was the cornerstone that helped me to find my own musical voice, especially in the composition area. As an archetypal classical pianist, reinterpretation and recreating music was unfamiliar at first; however, the refreshing experience I got from all the creative musical training at Eastman opened my eyes to develop my own genre of music. I am now staying in Korea, and my first debut album Back to Classics: Bach (The Classic Art) was released internationally. The album showcase was held at Ilshin Hall in Seoul in May."

2013 Michael Conrad (MM)

writes, "I released the album New Angle with my 15-piece ensemble, the All Angles Orchestra, featuring Alex Sipiagin. The group features a unique instrumentation that forces the jazz and classical worlds to collide. The CD was released on Outside In Music, a record label created by fellow Eastman alumnus Nicholas Finzer '09. I was recently selected as one of eight participants worldwide for the 2017 Metropole Orchestra Arrangers Workshop in the Netherlands. Out of more than 100 international submissions, my piece, 'Spherical,' was selected as one of three finalists in the Spheres of a Genius Composition Competition, a Jam Music Lab and Vienna Radio Symphony partnership celebrating 100 years of Thelonious Monk. I have been an ASCAP Herb Alpert Young Jazz Composer Award recipient for the last four consec-

utive years and have won three Downbeat Student Music Awards for composition/arranging in the past two years. Recent performance highlights include a summer Midwest tour with the All Angles Orchestra, performances at the Twin Cities Jazz Festival, and the Iowa City Jazz Festival with Christopher's Very Happy. Band., and a tour through China with the Romeo and Juliet Project."

2015 Margaret Harper (DMA) joined the faculty of the University of Southern Maine (Gorham) as artist faculty in organ and harpsichord. Margaret is also director of music and liturgy at St. John's Episcopal Church in Portsmouth, New Hampshire; the director of the choir school at St. John's; and a faculty member for the Young Organist Collaborative.

Trustee Barry Florescue '66 Remembered

Barry Florescue '66, a longtime member of the Board of Trustees, is being remembered for his business acumen, entrepreneurial spirit, and engagement with the University.

Florescue, who was elected to the board in 1998 and served in several advisory capacities, died in October at the age of 73.

President and CEO Joel Seligman paid tribute to Florescue's commitment to Rochester, particularly his support for an undergraduate business program named in Florescue's honor.

"Barry's more than two decades of support have made a lasting impact and have been recognized over the years on campus," Seligman said. "His extensive philanthropy will be a meaningtate properties in Florida, Colorado, New York, and Utah.

In addition to his service as a trustee and member of several board committees, Florescue served on the Flaum Eve Institute Advisory Board and the Simon Executive Advisory Committee and was cochair of the Florida Campaign Cabinet.

As an undergraduate, Florescue earned a business degree at Rochester from a program that was retired in 1972. At the time, the Simon School-then the School of Business Administra-

In the early 2010s, when the University re-

launched an initiative in undergraduate business education as a partnership between Simon and Arts, Sciences & Engineering, Florescue provided key financial support to the newly created major.

In recognition of his generosity, including additional support for scholarships and fellowships for students, the major was named the Barry Florescue Undergraduate Business Degree Program.

Florescue told Rochester Review in 2011 that he hoped the program would prepare students for success. "When I learned that the University was considering reestablishing the business major that I pursued as an undergraduate, I knew this was an important area of the dynamic curriculum that was worth supporting," he said. "I am pleased to be a part of this new program, knowing

that it will prepare our students to become successful players in the world of business."

Charlie Miersch '70S (MBA), a former senior associate dean at Simon, said Florescue was an esteemed colleague and long-time friend who loved his country and the opportunities it represented.

"His courage, drive, and business acumen served as inspiration to me and many others," Miersch said. "Having known Barry for over 30 years, I can attest to his commitment to the University and undergraduate business in particular. As a scholarship recipient himself, he wanted future generations to have the same opportunities he did. His generosity and vision made that possible." @ -SCOTT HAUSER

As a business leader, Florescue is credited with transforming the struggling food services company Horn & Hardart into a prominent corporation, taking the company within a decade to \$700 million in sales and \$150 million in net worth. He also served as chairman of the board and CEO of Century Financial Group and CEO of the hotel amenity company Marietta.

Jack Keil '44: 'The Funniest Man I Ever Knew'

I first met Jack Keil '44 when I went to the University in 1941.

I left to serve during the war and graduated with the Class of '47. In 1942, Jack was called into the Air Force, where he had a heroic career flying European missions over the oil fields and was awarded the Distinguished Flying Cross for his services as a bombardier navigator. He came back to the University to graduate with his class.

After the war, we were both in New York City. Jack had wanted to be an actor but ended up working for an advertising agency, and I worked in publishing. We had mutual friends, but we didn't really get to know one another well until we were both University trustees and were appointed to the Library Trustee Visiting Committee, which became the Libraries' Advisory Council. For a time, we chaired the committee together.

We were both very interested in the library. Both of us grew up in Rochester, and we were commuting students. We didn't have any home on campus except the library, so we knew every inch of that place: the stacks, the study rooms, the reference room, the lounges, everything. We felt very warmly toward it.

When the University began its Campaign for the '90s, we were concerned that the library didn't have a prominent place in the budget, and that computers were giving people the idea that books and journals didn't have much of a future.

Jack and I felt that the libraries needed some protection and promotion, so we went on a missionary journey for the libraries, with the support of four administrations over the years. They tolerated us at first and supported us as we went along for more than 20 years. With the help of past library deans Ron Dow and Susan Gibbons, we tried to keep the library as the center of the campus—which it was and which we believe it should be and continues to be under Mary Ann Mavrinac.

Jack, who died in August at his home in Vermont, loved the work we did at the library, and he and his wife, Barbara, endowed a position, the John M. and Barbara Keil University Archivist and Special Collections Librarian. First held by Nancy Erich Martin '65, '94 (MA), the position is occupied now by Melissa Mead.

Jack was one of the funniest men I have ever known. He was a performer, and he was good. He used to re-enact routines

from the radio show *Vic and Sade*, and later, *Bob and Ray*. My wife, Janet, and I used to travel with him and Barbara. Once we were in a little airport down in the Caribbean, sitting in a coffee shop. Jack jumped up on a table, dancing and singing the Toyota jingle. He worked at the ad agency Dancer Fitzgerald Sample, where he was the creative director, and they'd just gotten the Toyota account. And then he sang the Co-

coa Puffs song. And then he sat down again, and people didn't know what to make of it. But that was Jack, and he'd do that any time, any place.

He once called me in my office and said the Ad Council wanted Dancer Fitzgerald Sample to do a public service campaign about crime. He invented the character of McGruff's signature phrase, "Take a Bite out of Crime." He himself was the voice of McGruff for years. He loved doing it, and he kept doing it right up into his 80s.

Jack published a couple of books with John Wiley & Sons, the publisher for whom I worked: *The Creative Mystique: How to Manage It, Nurture It, and Make It Pay* (1985) and *How to Zig in a Zagging World: Unleashing Your Hidden Creativity* (1988).

A big-time jazz fan, Jack sang for years with a jazz combo at an inn in Saxons River, Vermont. He knew the words to everything. Even in his last days, he would go on Friday nights to join them. They loved it, and they played at his funeral.

He was always full of ideas, full of life, and saw fun in everything. **©**

—ANDREW NEILLY '47, AS TOLD TO KATHLEEN MCGARVEY

Neilly was the president, CEO, and vice chairman of the board of publisher John Wiley & Sons in New York City prior to his retirement in 1995. With Keil, Neilly helped raised \$10 million for the libraries. He and his wife also established the position of Andrew H. and Janet Dayton Neilly Dean of River Campus Libraries. Janet had the idea of a lecture series to bring the town and the campus together, and their endowed fund supports the Neilly Series Lectures, a public lecture series sponsored by the River Campus Libraries.
