2024 Make Math Moments Virtual Summit

This is your year of math confidence. It's your year for math moments! Get close and personal with 30+ of the most influential math education speakers in our profession and classroom teachers joining together to help you tackle the most important ideas in your classroom. Through a three-day series of LIVE VIRTUAL SESSIONS held November 15-17 2024, you'll learn how to step over the threshold of feeling confident and successful in your math class, and next look back. No cost for the Weekend Pass option.

Kickoff of Year 13 of Regional Mathematics Leadership Cadre

Recognizing Brilliance in the Mathematics Classroom: Embracing Students as Sense Makers

On October 23rd, the Math Education Outreach Team kicked off Year 13 of the Regional Mathematics Leadership Cadre with nearly 70 mathematics educators from the Greater Rochester Area. This year's focus is on recognizing brilliance in the mathematics classrooms by seeing and embracing students as sense makers.

We look forward to the remaining three full days of professional learning with this amazing group of educators dedicated to seeing students as capable learners of mathematics.

Podcast Recommendation of the Month

During the 2024-2025 school year, the Mathematics Education Outreach Team will be highlighting a podcast episode that we found impactful to our learning. We hope you will take a listen to some of our recommendations. If you have any suggestions of podcast episodes to highlight, please reach out and let us know. We always love recommendations from our community.

Marilyn Burns Math Podcast

Why Play Games in Math Class?
Conversation 9

In this episode of *Welcome to Math Class*, Marilyn Burns talks with host, Patty Clark, about the importance of playing games in math class. They discuss how to structure game play in your classroom, the teacher's role during game play, how to support students in developing strategies, and the opportunities to develop students' mathematical understanding.
