Professional learning has become even more of a necessity in a world that continues to change, thus creating new expectations as well as opportunities for everyone. Online technology has also created new possibilities about HOW professional learning could be designed and experienced. In this section we will share some innovative examples of these technology-rich alternative approaches, and then discuss implications for our own work.

This event will include brief presentations (no more than 5 minutes each) from a few “conversation starters” who will share their perspectives/lessons learned on the topic, followed by facilitated breakout room discussions where all participants can share and discuss their own experiences and thoughts on the topic, and concluding with reporting back by breakout room facilitators.

“*Conversation starters*”:

- A. **Online Summer Institutes: Combining synchronous and asynchronous online learning** (*Raffaella Borasi, University of Rochester*)
- B. **Online Professional Learning Communities (PLCs)** (*Jennifer Migliore, Cornell University*)
- C. **Synchronous online video-based coaching** (*Cynthia Callard & Cynthia Carson – University of Rochester*)
- D. **Hybrid PL opportunities in K-12 schools** (*Nicole Charles, East Irondequoit Central School District*)
- E. **“On demand PD” through websites** (*Eric Fredericksen & Lisa Brown, University of Rochester*)

Please join us in this public and free event, so we can all learn from each other’s experiences and insights
